PRINCIPAL EVENTS AND KEY POINTS

The most significant event in 2012 was the relocation of the GSA's headquarters to Prague, Czech Republic, as of 1 September 2012. The official announcement of the move was made by the Executive Director on 16 December 2011. In practical terms, the relocation was prepared within eight months and unarguably was a success without causing any disruption to the daily operations of the GSA.

Part of the GSA staff remained located in Brussels awaiting relocation to other GSA sites in France and UK in 2013.

In 2012, a Delegation Agreement was signed between the European Commission and the GSA - Delegation Agreement on the Implementation of tasks related to the preparation of the exploitation phase of the European GNSS programmes and the support to the Commission application plan with total delegated funds amounting to 34,4 million euro.

In connection with the implementation of the 7th Framework programme for research, technological development and demonstration activities and the respective Delegation Agreement signed between the GSA and the European Commission, 39 grant agreements were signed and projects launched in 2012.

Notes to the Financial Statements

I. General information about the entity

Note 1: European GNSS Agency (GSA)

The European GNSS Agency (GSA) was established as a Community Agency on 12 July 2004, by Council Regulation (EC) No. 1321/2004, status amended in 2006 by Council Regulation (EC) No 1942/2006. With Regulation (EU) No. 912/2010, which entered into force on 9 November 2010, the Regulation (EC) No. 1321/2004 was repealed and references to it are to be construed as references to Regulation (EU) No. 912/2010. Following recital 5 of Regulation (EU) No. 912/2010 the GSA is no longer to be called European GNSS Supervisory Authority but European GNSS Agency. According to Article 25 of Regulation (EU) No. 912/2010 any measures adopted on the basis of Regulation (EC) No. 1321/2004 remain valid. Taking this into account, the GSA was restructured into the European GNSS Agency, ensuring the continuity of its activities.

As regards the tasks of the GSA, Article 2 of Regulation (EU) No. 912/2010 provides that they shall remain as set out in Article 16 of Regulation (EC) No. 683/2008:

"Subject to the provisions of Article 12 [GNSS Regulation] and the respect of the Commission's role as manager of the programmes, the [GSA] shall accomplish the following tasks within the programmes in accordance with guidelines to be issued by the Commission:

- (a) with regard to the security of the programmes, and without prejudice to Articles 13 and 14 [GNSS Regulation], it shall ensure:
 - (i) security accreditation; to that effect it shall initiate and monitor the implementation of security procedures and perform system security audits;
 - (ii) the operation of the Galileo security centre, implemented in accordance with decisions taken pursuant to Article 13 [GNSS Regulation] and the instructions provided under Joint Action 2004/552/CFSP;
- (b) it shall contribute to the preparation of the commercialisation of the systems, including the necessary market analysis;
- (c) it shall also accomplish other tasks that may be entrusted to it by the Commission, in accordance with Article 54(2)(b) of the Financial Regulation, addressing specific issues linked to the programmes, such as:
 - (i) promoting applications and services in the satellite navigation market;
 - (i) ensuring that the components of the systems are certified by the appropriate, duly authorised, certification bodies."

II. Compliance with the applicable accounting regulations

Note 2: Accounting regulations and principles

These financial statements of the GSA have been prepared in accordance with:

- GSA Regulation (EU) No. 912/2010;
- Financial regulation of the GSA adopted by the Administrative Board on 11 October 2005 (GSA-AB-2005-042), as amended by the Administrative Board on 20 November 2008 (GSA-AB-08-11-18-02);
- Implementing rules of the financial regulation adopted by the Administrative Board on 27 October 2006 (GSA-AB-06-10-07-04);
- Financial Regulation (Council Regulation (EC,Euratom) No 1605/2002) and Implementing rules applicable to the general budget of the European Communities (Commission Regulation (EC,Euratom) No 2342/2002);
- General accounting rules and harmonised chart of accounts adopted by the Commission's accounting officer and communicated on 28 December 2004, amended by decisions communicated on 18 October 2006 and 17 December 2008;
- Relevant IPSAS¹ rules whenever the accounting rules of the European Commission were not sufficiently precise.

These financial statements have been prepared in accordance with the generally accepted accounting principles, as defined by the GSA Financial Regulation under the provision of Article 78, namely:

- going concern basis,
- prudence,
- consistent accounting methods,
- comparability of information,
- materiality,
- no netting,
- reality over appearance, and
- accrual-based accounting.

The objective of financial statements is to provide information about the financial position, performance and cash flows of an entity that is useful to a wide range of users. For an agency of the European Union such as the GSA, there is the additional objective of demonstrating, to the budgetary authority, the sound management of the resources entrusted to it.

III. Significant accounting policies and criteria applied

Note 3: Significant accounting policies

Fixed assets

Tangible and intangible fixed assets are shown at historical cost less accumulated depreciation and any recognised impairment losses. Only the assets controlled by the GSA and with value equal to or greater than €420.00 are registered in the fixed assets register. Costs associated with developing or maintaining computer software programs are recognised as incurred expenses.

Depreciation is charged so as to write off the cost or valuation of assets, other than land and properties under construction, over their estimated useful lives using the straight-line method on the following basis:

Intangible fixed assets:

- Software: 4 years

Tangible fixed assets:

- Buildings: 25 years
- Plant and equipment: 4 – 8 years
- Fixtures and fittings: 4 – 10 years
- Computer hardware: 4 years
- Other fixed assets: 3 – 4 years

The carrying values of fixed assets are reviewed for impairment if events or changes in circumstances indicate that they may not be recoverable. As the GSA is a non-profit organisation, if any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Any provision for impairment is charged against the Economic Outturn Account in the year concerned.

Pre-financing

Pre-financing is a payment intended to provide the beneficiary with a cash advance. It may be split into a number of payments over a period defined in the respective pre-financing agreement. The float or advance is repaid or used for the purpose for which it was provided during the period defined in the agreement. If the beneficiary does not incur eligible expenditures, he has the obligation to return the pre-financing advance to the GSA. The amount of the pre-financing is reduced (wholly or partially) by the acceptance of the eligible costs and amounts returned.

At year-end, the outstanding pre-financing amounts are valued at the original amount(s) paid less: amounts returned, eligible amounts cleared, estimated eligible amounts not yet cleared at year-end and value reductions.

Guarantees related to pre-financing amounts are disclosed in the off-balance sheet as contingent assets.

Receivables

Receivables, i.e. transfers are recognised as an asset when the GSA controls the resources as a result of a past event (the transfer) and expects to receive future economic benefits or service potential from those resources.

Annual Accounts 2012

This control of transferred resources is obtained either when the resources have been transferred, or the GSA has an enforceable claim against the transferor.

Receivables are stated at their nominal value as reduced by appropriate allowances for the estimated irrecoverable amounts.

No allowance for loss is recorded with respect to receivables related to Member States, except for exceptional and agreed technical reasons.

For all other receivables, an allowance for loss is established based on a review of outstanding amounts at the reporting date.

Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less.

Provisions and accruals

According to the accounting rules, transactions and events are recorded in the accounting systems and recognised in the financial statements in the period to which they relate. Provisions and accruals are recognised when the GSA has a legal or constructive obligation as a result of a past event, and where it is probable that an outflow of resources will be required to settle the obligation, and where a reliable estimate of the amount of the obligation can be made. The GSA developed a procedure for establishing of the accruals, which is followed while doing cut-off exercise.

Payables

Payables are arising either from the purchase of goods and services or from the cost claims from beneficiaries of grants.

Payables arising from the purchase of goods and services are recognised at the invoice reception for the original amount and corresponding expenses are entered in the accounts when the supplies are delivered and accepted by GSA.

Payables arising from cost claims are recorded as liabilities for the requested amount when the cost claim is received and, after verification, accepted as eligible by the relevant operational agent. At this stage they are valued at the accepted and eligible amount.

Use of estimates

The financial statements necessarily include amounts based on estimates and assumptions by management. Significant estimates include, but are not limited to, fair value of financial risk on inventories and accounts receivables, accrued charges, contingent assets and liabilities, and degree of impairment of fixed assets. Actual results could differ from those estimates. Changes in estimates are reflected in the period in which they become known.

Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment that are subject to risks and return that are different from those of segments operating in other economic environments.

Annual Accounts 2012

Assigned revenues

According to the accounting rule of matching principle, revenues and expenses are matched in the same accounting period. Therefore expenses are reported on the Economic Outturn Account during the same period as the revenues they generated.

Effects of changes in foreign exchange rates

The financial statements of the GSA are presented in euro, which is the European Union's functional and reporting currency.

Transactions in other currencies than in euro are converted into euro on the basis of the European Commission's official rate at the date of the transaction.

At the year end, the balances of foreign currency monetary items are translated to euro using the European Commission's closing rate at 31 December.

IV. Additional information on financial statements items

Note 4: Intangible fixed assets

Changes in intangible fixed assets and related depreciation for the year were as follows:

Net carrying amount at 31.12.2012	45,166.33

Annual Accounts 2012

Intangible fixed assets are identifiable non-monetary assets without physical substance.

In accordance with the provisions of EC accounting rule no. 7 the straight-line depreciation method is applied on a pro rata, monthly basis.

Note 5: Tangible fixed assets

To determine whether or not to recognise an asset, the GSA bases its analyses on EC accounting rule no. 7, and on IPSAS rule 17, which states that

"An item of property, plant and equipment should be recognized as an asset when:

(a) It is probable that future economic benefits or service potential associated with the asset will flow to the entity; and

(b) The cost or fair value of the asset to the entity can be measured reliably."

and on "IASB Framework of the preparation of Financial Statements", which "(a) An asset is a resource controlled by the entity as a result of past events and from which future economic benefits are expected to flow to the entity." IPSAS17 essentially extends the concept of economic benefits to service potential.

In accordance with the provisions of EC accounting rule no. 7, the straight-line depreciation method is applied on a pro rata, monthly basis.

The major acquisitions in 2012 related to the purchase of servers and other IT equipment for the new headquarters of the GSA in Prague.

The disposals related to the write-off of stolen items.

Changes in fixed assets and related depreciation for the year were as follows:

- ✓ Amount for recovery of expenses related to overstatement of costs related to FP6 projects established as a result from ex-post audits performed by independent external audit firm – €868,952.60
- ✓ Estimated amount for recovery of expenses related to ineligible costs related to FP7 1st and 2nd calls based on the findings of ex-post audits performed by independent audit firms - €233,437
- ✓ Overpayment of pre-financing related to two FP7 3d call projects - €67,450.00

Current receivables contain recoverable VAT from France of €4,299.71 and recoverable VAT from the Czech Republic of €22,589.85.

Receivables from staff include miscellaneous staff costs and salary advances to be claimed from other European Agencies, European Commission and staff.

Deferred charges consist of advance payments made during the year e.g. subscriptions, advertising, maintenance fees related to 2013 etc. in the amount of €61,919.06.

Accrued income represents bank interests for the fourth quarter of the year 2012.

Note 8: Cash and cash equivalents

The cash held at bank as at 31 December 2012 amounts to €21,705,139.23.

The interest received - €205,484.70, which was generated on the pre-financing received, is property of the European Commission and will be paid back during the year 2013.

The GSA has neither a credit line nor overdraft arrangements with its bank.

<i>PRS receiver/GSMCs (DA)</i>	-	-
<i>GNSS Exploitation preparatory activities (DA)</i>	1,511,368.75	-
Total accrued income	148,456,223.56	139,182,343.08
Total as at 31 December	18,588,218.38	27,943,100.48

Accrued income represents the amount of eligible costs that were taken as expenses in the economic outturn account.

3. The accrued charges consist of:

Description	31.12.2012	31.12.2011
Operational expenditure	2,942,561.20	6,923,642.00
Administrative expenditure	341,913.28	147,469.68
Unused annual leave	120,734.49	68,689.39
Accrual for assets acquired	151,436.13	
Total as at 31 December	3,556,645.10	7,139,801.07

The accrued amounts for administrative expenditure and assets acquired represent goods and services received in 2012 but not yet booked as vendor payables as of 31 December 2012. These expenses are of two types:

- Invoices to be received which correspond to the amounts accrued;
- Estimated amounts set aside to pay for goods and services delivered in 2012.

Operational expenditure accruals relate to the following:

Description	31.12.2012	31.12.2011
7th Framework Programme	1,609,103.45	5,328,939.90
6th Framework Programme	570,363.32	1,120,185.40
GNSS preparatory activities	505,516.55	-
Market development, security and other activities	257,577.88	474,516.70
Total as at 31 December	2,942,561.20	6,923,642.00

The method applied to determine the operational expenditure accruals is the percentage-of-completion method in compliance with the EC Accounting Rule #3 Expenses and payables. In particular, the estimates are based on the work performed to date as a percentage of the total services to be performed. Only costs that reflect work performed to date are included in the estimated costs incurred to date.

Note 9: Provisions for risks and charges

In 2012, the GSA also recognised as a provision the amount of **€110,840.86** which relate to the 2012 annual adjustment of 1,7% of the staff remuneration currently under debate.

Note 10: Contingent assets/ liabilities and other significant disclosures

Contingent assets usually arise from unplanned or other unexpected events that (a) are not wholly within the control of the entity, and (b) give rise to the possibility of an inflow of economic benefits or service potential to the entity. The contingent assets amounting to €122,000 represent a claim the GSA has over the pre-financing paid to a grant beneficiary which went bankrupt and did not deliver the work assigned as per the grant agreement.

The contingent liabilities consist of legal obligations of the GSA for the actions, which will be taken in the future. Contingent liabilities are calculated based on the total RAL - commitments not yet consumed – and the accrued charges. The total RAL as at the end of 2012 amount to €27,072,949.24 split to budgetary RAL of €4,125,075.16 and RAL on assigned revenue of €23,072,949.24.

At year end the contingent liabilities amount for €8,016,017.12.

The core part of the contingent liabilities consist of the future costs of 7th Framework Programme (€4,377,510.73).

The other components of the contingent liabilities are the 6th Framework Programme (€484,355.18), GNSS preparatory activities (€1,235,505.90) and Title III Operational expenditure (€1,928,655.31).

Note 11: Accrued income from Community subsidy

Description	31.12.2012	31.12.2011
EC subsidy received	12,925,449.38	8,200,000.00
Balance of the budget outturn account for the year	- 64,117.57	- 709,958.59
Total income recognised as revenue	12,861,331.81	7,490,041.41

This income is calculated on the basis of the budget outturn account and represents all payments made in the year 2012 plus the payment appropriations carried over to the year 2013 less unused payment appropriations of the year 2011.

Note 12: Accrued income from assigned revenue

Income from pre-financing for operating activities is equal to the expenses charged to the pre-financing received; see Note 8, for pre-financing.

The entrusted activities do not bring any income. The GSA is performing the activities on behalf of the European Community.

The total accrued income from assigned tasks amounts to **€16,554,245.08**.

Note 13: Other operating revenues and net financial revenues

Other operating revenue consists of the following items:

- ✓ Amount for recovery of expenses related to overstatement of costs related to FP6 projects established as a result from ex-post audits performed by independent external audit firm – €868,952.60
- ✓ Estimate of amounts for recovery of expenses related to overstatement of costs related to FP7 1st and 2nd call projects established as a result from ex-post audits performed by independent external audit firms – €51,294
- ✓ Recovery of expenses from the Guarantee Fund of €53,530 and liquidator of a bankrupt company of €20,475.40
- ✓ Recovery of administrative expenses from consolidated entities - €7,626
- ✓ Exchange rate gains - €9,308.46

The net financial revenues for 2012 amount to €118.46.

Note 14: Operating expenditure

The operational expenditure consists of:

Description	31.12.2012	31.12.2011
Agencies Operational activities	16,964,826.61	22,027,917.16
Provisions for other liabilities and charges	110,840.86	29,043.30
Realised exchange rate losses	43,261.03	2,405.44
Total as at 31 December	17,118,928.50	22,059,365.90

The 7th Framework Programme represents the main part of the operating expenses, which is normal given the size and the maturity of this programme.

Provision of other liabilities and charges is the provision for the salary increase in 2012 not yet approved.

Note 15: Staff expenditure

The structure of the staff expenditure for the year 2012 is as follows:

Description	31.12.2012	31.12.2011
Staff Costs (excluding ENDS and others experts)	3,496,755.20	2,724,474.01
Pensioners & unemployment	32,528.63	25,929.56
Employer's contribution for social security	95,551.40	80,468.24
Allowances (excluding ENDS and other Experts)	991,849.68	576,720.59
Allowances for ENDS and other Experts	26,068.62	61,573.63
Staff expenses with other consolidated entities	51,561.43	59,049.43
Total as at 31 December	4,694,404.96	3,528,215.46

Note 16: Other administrative expenditure

The structure of other administrative expenditure for the year 2012 is as follows:

Description	31.12.2012	31.12.2011
Land & building expenses with consolidated entities	581,504.46	572,714.19
Rent of land and buildings	64,222.74	-
Communications & publications	938,927.70	234,875.39
Recruitment costs	101,385.45	35,645.83
Training Costs	8,382.70	5,003.67
Missions	495,781.12	276,888.86
Experts and related expenditure	390,226.21	337,246.05
IT costs operational	1,107,187.98	317,679.53
Other external service providers	1,346,144.45	462,751.48
Expenses with consolidated entities	221,654.01	290,297.69
Total as at 31 December	5,255,416.82	2,533,102.69

Note 17: Operating lease

The lease agreements for the GSA premises in Brussels and, as of 1 September 2012, in Prague are recognised as operating lease.

The expenses related to the Brussels office rental for 2012 amount to €581,504.16.

Operating lease expenses in 2012 amounting to €64,222.74 relate to the rental agreement of the new GSA headquarters premises in Prague and consist of €1 symbolic rent and €64,221.74 other rental charges.

Note 18: Non-exchange transactions

In some transactions, an entity will receive resources/services and provide no or nominal consideration in return. These transactions are therefore non-exchange transactions and are dealt with by the EAR 17 Revenue from non-exchange transactions. According to EAR 17, services in-kind are services provided to public sector bodies in a non-exchange transaction.

According to the lease agreement for the GSA's headquarters premises in Prague, Czech Republic, a symbolic rent of €1 annually is due for the first 5 years and for the subsequent period a rent of 25% of the commercial rent. The symbolic rent is a non-exchange component of the lease agreement and is considered as being a service in-kind in the sense of EAR 17. The lease of the GSA's premises is classified as operating lease and therefore no recognition of the non-exchange component is needed.

Note 19: Effects of changes in foreign exchange rates

Due to the GSA's relocation to the Czech Republic as of 1 September 2012, the number of transactions denominated in Czech Koruna increased substantially. Foreign currency exchange rate gains or losses resulting from transactions in other currencies than euro were recognised in the economic outturn account. The net loss from exchange rate fluctuations recognised in the economic outturn for 2012 is €33,952.58.

At the year end, the balances of foreign currency monetary items were translated to euro using the European Commission's closing rate - 1 EUR = 25.151000 CZK.

V. Non-financial information

Note 20: Segment information

A working paper on the development of the activity-based budgeting and accounting was prepared in July 2007 and a request was sent to the European Commission for the implementation in 2008 of the Activity-Based Accounting system. However, since the activities of the GSA were significantly altered by the entry into force of the GNSS Regulation, this implementation was delayed. In 2011, the GSA made the first steps in the implementation of the activity-based budgeting by setting up the necessary system elements for monitoring and reporting on the expenditure related to the Security Accreditation Board activities which continued also in 2012.

As of 2013, the segment reporting will be implemented in full given the multi-location structure of the GSA and the different nature of its activities.

Note 21: Related party disclosure

Key management personnel hold positions of responsibility within the Agency. They are responsible for strategic direction and operational management of the entity and are entrusted with significant authority to execute their mandate.

The Agency is managed by the Executive Director (Authorising Officer). His remuneration, allowances and other entitlements are covered by the Conditions of Employment of Other Servants of the European Communities.

Highest grade description	Grade	Number of persons of this grade
Executive director	AD14	1

Note 22: Events after the balance sheet date

The ex-post audits performed by independent audit firms on FP7 1st and 2nd call beneficiaries reached their final stages in May 2013. The findings related to ineligible expenditure incurred in 2012 and prior years provided evidence of conditions that existed at the reporting date and therefore are considered as an adjusting event after the reporting date.

Based on the findings, a best estimate of the recoverable amounts has been recognized as receivable in the annual accounts in the amount of €233,437.

Annexes to the Budget Implementation

I. General information about budget execution

Note 1: General remarks

An in-depth analysis of all aspects of the budgetary management and implementation in 2012 is provided in the attached report on budgetary and financial management of the GSA.

Note 2: Budgetary principles

The establishment and implementation of the GSA's budget is governed by the principles set out in the GSA Financial Regulation as outlined below:

-Principle of unity and budget accuracy: the budget is the instrument which, for each financial year, forecasts and authorizes the revenue and expenditure considered necessary for the GSA.

-Principle of annuality: the appropriations entered in the budget are authorized for one financial year which shall run from 1 January to 31 December.

-Principle of equilibrium: the budget revenue and payment appropriations must be in balance.

-Principle of unit of account: the budget shall be drawn up in euro and implemented in euro and the accounts are presented in euro.

-Principle of universality: total revenue covers all expenditure where all revenue and expenditure are entered in full without any adjustment against each other.

-Principle of specification: the appropriations in their entirety shall be earmarked for specific purposes by title and chapter whereas the chapters are further sub-divided into articles and items. The Executive Director may make transfers from one chapter to another and from one article to another without limit and from one title to another up to a maximum of 10% of the appropriations for the financial year shown on the line from which the transfer is made. Beyond that limit, the Executive Director may propose to the Administrative Board transfer of appropriations from one title to another.

-Principle of sound financial management: budget appropriations shall be used in accordance with the principle of sound financial management namely in accordance with the principles of economy, efficiency and effectiveness.

-Principle of transparency: a summary of the budget and amending budgets, as finally adopted, shall be published in the Official Journal of the European Union within three months of their adoption.

Note 3: Types of appropriations

The GSA makes use of non-differentiated appropriations for its administrative expenditure and differentiated appropriations for its operational expenditure.

Note 4: Structure and presentation of the budget

Following the provisions of the GSA Financial regulation, its budget comprises a statement of revenue and a statement of expenditure. The budget accounts shall provide a detailed record of the budget implementation and shall record all budget revenue and expenditure. The statement of expenditure is set out on the basis of a nomenclature with a classification by purpose as justified by the nature of the GSA's activities defined in its constituent act. A clear distinction is made between administrative appropriations and operating appropriations as follows:

-Title 1 budget lines are related to staff expenditure: salaries and allowances of the staff members and all other entitlements. It also includes recruitment, interim, training and administrative mission costs.

-Title 2 budget lines relate to building rental, equipment and other miscellaneous operating administrative expenditure.

-Title 3 budget lines relate to the implementation of the activities and tasks assigned to the GSA by its establishing Regulation (EU) No 912/2010 of the European Parliament and of the Council of 22 September 2010.

-Assigned revenue budget lines relate to operating expenditure incurred in connection with the execution of programmes or performance of specific tasks delegated to the GSA by the Commission.

II. Additional information on the budget outturn account items

Note 5: Revenue

The budgetary revenue consists of:

Note 7: Budget execution

The initial budget decided by the European Parliament and the European Council during the budget adoption procedure was set at 10,749,472 EUR. In April 2012, the European Commission decided to allocate to the GSA additional appropriations to support the relocation project to Prague headquarters, which increased the initial budget level with 2,000,000 EUR (net of 1,989,176 EUR, after corrections in third countries contributions), providing a total GSA budget of 12,738,648 EUR for commitments and payments.

A second amendment to the budget was needed in order to accept additional payment appropriations from the European Commission in September 2012. 186,801 EUR of payments were granted to the GSA to help the Agency meet its payment needs for operational costs. As a result, the GSA final budget for commitments was set at 12,738,648 EUR, and for payments at 12,925,449 EUR.

Note 8: Analysis on outstanding commitments

This chapter summarises the evolution of outstanding commitment balances during 2012 by budget line and title (Table 6). Regarding budget line 1100 (Staff costs), cancellations were related to the C1 credits becoming automatically C9 on that budget line in the following year. Regarding budget lines 1200, 1300, 1400, 1700, 1800, 1900, 2000, 2100, 2300 and 2500, cancellations were related to C8 credits becoming automatically C9 in the following year on HR and administrative expenditure budget lines.

Regarding budget lines 3100 and 3300, cancellations were related to de-commitments performed in 2012.
