1. CONTEXT

1.1. Overview

The present Call for Proposal with its annexes provides the Applicants with the terms and conditions to be respected in order to submit a proposal and participate to the grant procedure.

NOTA BENE: Interested parties are invited to read carefully everything below in order to ensure that applications are complete and compliant with the call for proposal’s terms and conditions when submitted.

1.2. Introduction

The mission of the European GNSS Agency (GSA) is to support European Union objectives and achieve the highest return on the European GNSS (E-GNSS) investment represented by the EGNOS and Galileo programmes, in terms of benefits to users and economic growth and competitiveness. Subject to the entry into force of the Space Regulation\(^1\), the Agency may be succeeded by the European Union Agency for the Space Programme – “EUSPA” (i.e. the GSA successor\(^2\)). The European Geostationary Navigation Overlay Service (EGNOS) provides an augmentation signal to the Global Positioning System (GPS) Standard Positioning Service (SPS). Presently, EGNOS augments GPS using the L1 (1575.42 MHz) Coarse/Acquisition (C/A) civilian signal function by providing correction data and integrity information for improving positioning and navigation services over Europe.

Currently the system delivers the following services:

- An EGNOS Open Service (OS), which is free of charge to the user and provides positioning and synchronisation information intended mainly for mass market and general navigation applications in the area covered by the EGNOS system. The EGNOS Open Service was declared on 1 October 2009.

- An EGNOS Safety of Life service (SoL), which is available free of charge to all European users within the service coverage area and is tailored for safety critical applications which have stringent accuracy, integrity, continuity and availability needs. The EGNOS SoL service was declared operational on 2 March 2011 and enables RNP APCH down to a minimum as low as 200ft without the need of any ground infrastructure installation as of October 2015, when the LPV-200 service was declared, enabling approaches that are operationally equivalent to ILS CAT I.

- An EGNOS Data Access Service (EDAS) to promote the development of applications for professional or commercial use by providing data with greater added value than those obtained through the EGNOS Open Service; The EGNOS Data Access Service was declared on 26 July 2012. Supporting adoption of EGNOS in EU transport is a strategic goal to ensure the success of the programme, while contributing to achieve the EU priorities, such as Green Deal, EU digitisation, promoting our EU way of life, as well as supporting the recovery from COVID.

\(^2\) For the purpose of this grant procedure both GSA and EUSPA as GSA’s successor shall be considered as contracting authority.
The Performance Based Navigation regulation (2018/1048) (hereinafter referred to as “the PBN regulation”) mandates the implementation of RNP APCH (Required Navigation Performance Approach), including LPV minima to all Instrument Runway Ends (IRE) by 2024, with two milestones: 1) by 3 December 2020, for all IREs without precision approach, except those airports listed in point 1.2.1 of the PCP Regulation and 2) by 2024 for all IRE. It also envisages a full PBN environment by 2030. Therefore, EGNOS will be essential for Cat I approaches in the future EU air navigation, while enabling emissions reduction and more flexible routes.

EGNOS operational implementation is also increasing in other transport means. EGNOS is a source of differential corrections in IALA
3 beacons and AIS
4 stations providing a Differential GNSS (DGNSS) service, which is especially relevant as a cost-effective solution for infrastructure upgrade. Retransmission of corrections also provides a solution when there is limited visibility of EGNOS satellites (e.g. inland waterways or very high latitudes). All vessels in their waters with an IALA beacon or AIS receivers on board can benefit from this service, which is especially relevant in cases of limited visibility of satellites such as Inland waterways. In railway, EGNOS can help to improve safety and reduce the cost of signalling with very few or no lineside infrastructure components. The EC and GSA are working together with main rail stakeholder associations along a common roadmap for E-GNSS introduction in rail signalling.

To meet the overall objectives of the EGNOS programme, the uptake in transport applications is vital. This call should result in the implementation of EGNOS based operations in civil aviation, inland waterways and rail, increasing safety and efficiency for the benefit of European aerodromes and airspace users.

1.3. Legal basis of the call

In this framework, and in accordance with the EGNOS Grant Plan for 2020 published on the GSA website (http://www.gsa.europa.eu/gsa/grants), the GSA is launching a call for proposals to increase EGNOS adoption in aviation, inland waterways and railway.

2. OBJECTIVES AND SCOPE OF THE CALL

2.1. Objective of the call for proposals

Applicants are requested to submit proposals for fulfilling one of the three objectives stated below:
1) Increasing EGNOS adoption in the European aviation, enabling users to get equipped with Global Positioning System/Satellite-based Augmentation System (GPS/SBAS) enabled terminals, and fostering its

---

3 IALA is the International Association of Marine Aids to Navigation and Lighthouse Authorities
4 AIS: Automatic Identification System
consolidation in transport infrastructure by supporting Air Navigation Service Providers and airports/heliports to implement and test EGNOS based operations;

2) Increasing EGNOS adoption in inland waterways and maritime enabling users to get equipped with Global Positioning System/Satellite-based Augmentation System (GPS/SBAS) enabled terminals, and fostering its consolidation in transport infrastructure by supporting competent authorities to implement and test EGNOS based operations;

3) Increasing EGNOS adoption in railway, enabling users to get equipped with Global Positioning System/Satellite-based Augmentation System (GPS/SBAS) enabled terminals, and fostering its consolidation in transport infrastructure by supporting Rail stakeholders to implement and test EGNOS based operations.

In particular:

In the case of aviation, the implementation actions include approaches benefitting from the Localizer Performance with Vertical guidance (LPV) and LPV200 service levels, PinS LPV procedures and low-level Instrument Flight Rule (IFR) routes in Europe, as well as other advanced operations, such as Required Navigation Performance (RNP) AR using SBAS, or other operations that support aviation to go green. The implementation action will also include pilot cases on advanced navigation operations benefitting from EGNOS, assessment of new operational scenarios, such as implementation in aerodromes with limited infrastructure and activities promoting the use of EGNOS for other communication and surveillance applications in all phases of flight. Further, the call aims at facilitating airspace users to get ready for the PBN Regulation along with a sustainable green aviation, encouraging SBAS equipage in commercial, regional, business (corporate) aviation, general aviation (training, emergency services) and rotorcraft. Aircraft and avionics manufacturers interested in benefitting from EGNOS are encouraged to apply to the call. The result of these activities will be a wide scale operational implementation of the EGNOS based operations throughout European airports and airspace users.

With respect to Maritime and Inland waterways, the objective of the call is to facilitate operational implementation of EGNOS in shore stations and user terminal equipment. New commission implementing regulation 2019/838 on vessel tracking and tracing systems establishes the technical specifications to improve efficiency of transport and safety of navigation in inland waterways. IALA published Guidelines G1129 on the Retransmission of SBAS Corrections using MF-Radio Beacon and AIS. Considering that EGNOS is a cost-effective solution to provide differential corrections for accurate vessel tracking, actions in this segment shall target deployment of shore stations equipment that enables transmission of EGNOS corrections over IALA and AIS stations. On the final user side, the activity aims at increasing the use of terminals (AIS and VDES equipment) on board of vessels. It also targets the operational introduction of EGNOS in port operation, such as development and use of EGNOS capable Portable Pilot units to assist local pilots in the safe navigation of the piloted vessel.

In the case of rail, the call aims at facilitating introduction of EGNSS in rail safety critical applications. On one hand it enables demonstration of EGNSS-based train localization safety for future inclusion in European Rail Traffic Management System (ERTMS), by installing the necessary equipment in pilot lines. On the other hand, the action enables early EGNSS operational introduction in rail signaling by focusing on non-interoperable railway lines.

---

6 IALA G1129 are available for free at https://www.iala-aism.org/product/g1129-retransmission-sbas-corrections-using-mf-radio-beacon-ais/
2.2. Scope and areas of activities of the call for proposals

In order to reach the objectives of the call, applicants are expected to conduct at least one of the activities described below:

1. EGNOS Adoption in Aviation

1.A. EGNOS based Operations: RNP APCH/PinS procedures to LPV/LPV200 minima, low level IFR routes and advanced operations

Projects under this area of activity shall focus on the design and implementation, achieving operational use of EGNOS approach procedures at European airports and/or heliports. Activities typically required to set up such PBN Instrument Approach Procedures may include, among others, procedure design (according to APV SBAS and SBAS Cat I design criteria), obstacle survey, safety assessment, ground and flight validation, training for air traffic control officers and/or pilots, and publication. Proposals shall contribute to track actual EGNOS based performed approaches in Europe.

The following activities are eligible:

- Pilot cases aiming at assessing new operational scenarios, such as LPV to aerodromes without Air Traffic Control (ATC) or non-instrument runways;
- Publication of 3D approach procedures in accordance with the requirements of the RNP approach (RNP APCH) specification at European airports, including LPV/LPV200 minima;
- Implementation of other EGNOS based operations including radius to fix (RF) legs and RNP authorisation required approach (RNP AR APCH); and assessment of operational benefits;
- Implementation of PinS Procedures to LPV minima and Low-Level Routes to serve heliports, helipads or oil rigs, including Simultaneous Non-Interfering Approaches (SNI) to avoid conflicts with fixed-wing traffic operating at a certain airport;
- Design and implementation of other communication, navigation and surveillance applications benefitting from EGNOS for all phases of flight, such as steep approaches or other EGNOS based operation supporting reduction of emissions and benefiting the environment.

1.B. EGNOS based Avionics solutions development and installation

Projects under this area of activity shall enable large scale operational use of LPV capabilities on board, including development and/or installation of SBAS/EGNOS LPV capabilities for new aircraft models and/or its entry into operation, as well as hardware upgrades or acquisition, hardware installation and certification and/or obtaining the specific operational approval for aircraft/helicopter in service. Applications are mostly expected from aircraft or rotorcraft manufacturers, airspace users, as well as EASA Part-21 organisations.

The following activities are eligible:

- Development of retrofit and forwardfit solutions including LPV capabilities.
- Installation of GPS/EGNOS enabled avionics and granting of airworthiness certification for RNP APCH procedures down to LPV minima, including PinS.
- Development of SBAS LPV in new aircraft models and/or its entry into operation.
- Development of Service Bulletin and/or Supplemental Type Certificate aiming at including SBAS LPV capabilities in aircraft/rotorcraft models.
1.C. EGNOS enablers for wider adoption and other airspace users

This area of activity addresses the development of enablers to accelerate EGNOS adoption and its operational use by civil aviation. Proposals may include but not be limited to hardware/software development, processes implementation and related trials. The proposals under this area of activity should first demonstrate the need for such enablers by aviation stakeholders with short term impact on acceleration of EGNOS adoption and prove readiness of the proposer to accomplish the proposed tasks within the time of the project.

The following activities are examples of eligible activities:

- Development of EGNOS capabilities within flight simulators, validation tools, training materials
- Development and/or implementation of EGNOS based solutions for drones’ operations.
- Design and implementation of other communication, navigation and surveillance applications benefitting from EGNOS for all phases of flight.
- Integration of EGNOS in other airport and or ATC operations, contributing to EU Digitisation.

2. EGNOS Adoption in Maritime and inland waterways

2.A. EGNOS based equipment in shore infrastructure

This area of activity addresses the development and/or installation of equipment in shore infrastructure aiming to accelerate EGNOS adoption and its operational use by maritime and inland waterways Authorities. Proposals may include but not be limited to hardware/software development, processes implementation and related trials. The following activities are eligible:

- Feasibility analysis for upgrade of EGNOS/EDAS equipment in shore infrastructure (IALA beacons and AIS stations), as a source of differential corrections to be transmitted to increase safety in Inland Waterways.
- Upgrade of shore infrastructure (IALA beacons and AIS stations) with EGNOS/EDAS.
- Operational test and validation of the infrastructure upgrade.

2.B. EGNOS based user terminals

This area of activity addresses the development and/or operational introduction of EGNOS based user terminals for vessels and pilots. The following activities are eligible:

- Design, development and installation of EGNOS enabled user terminals, such as AIS/VDES.
- Design, development and installation of EGNOS capable Portable Pilot Units.
- Design, development and installation of other EGNOS capable equipment in ports, vessels and for pilots, aiming at increasing sustainability of maritime/inland waterway transport and digitalisation of operations.

3. EGNOS Adoption in Rail

3.A. EGNSS deployment in rail pilot lines

This area of activity addresses the development of enablers to prepare for the introduction of EGNSS in rail signalling. Proposals may include but not be limited to hardware/software development, processes implementation and related trials. The following activities are eligible:
- Installation of EGNSS equipment such as receivers, antennas or augmentation system components for onboard and trackside GNSS-based signalling solutions within pilot lines and trial sites,
- Validation of the proposed solution and implementation of trials, aiming to demonstrate EGNSS-based train localization safety for future inclusion in ERTMS.

3.B. EGNSS installation in non-interoperable railway lines

This area of activity addresses the early EGNSS operational introduction in rail signaling in pioneer non-interoperable railway lines. The following activities are eligible:

- Installation of EGNSS equipment such as receivers, antennas or components of augmentation systems within projects deploying GNSS based signalling solutions at non-interoperable railway lines.
- Validation of the proposed solution and implementation of trials, aiming to demonstrate the benefits of EGNSS non-interoperable railway lines.

3. CORE ACTIVITIES, DELIVERABLES, WORKFLOW AND OUTPUTS

3.1. Core Activities

For the purpose of this call the following activities (belonging to one or more of the areas described above in section 2.2) are considered core to the project:

- Management and coordination.
- Operational feedback

3.2. Deliverables

During the implementation of the action the beneficiaries are expected to submit a number of deliverables including documents and hardware.

Area 1.A:

- Initial Report including evidence on: Feasibility, Cartography, Obstacle Survey, Conceptual and Initial Design Report and draft Chart;
- Chart for procedure with FAS DB information;
- Report from the flight procedure designer who review the procedure design, according to ICAO quality assurance process;
- Safety Assessment;
- Ground/Flight Validation Report considering all the investment, costs and savings from LPV usage;
- Final Report including evidence on: Procedure Design Report, ATCO training, approval, publication and effectiveness dates, EWA signature, Benefits-Risks and other comments

Area 1.B:
• Operation Approval and associated documentation (for upgrade of aircraft in service by the operator)
• Compliance demonstration and EASA STC/SB approval; (for STC/SB development activities)
• Final Report including: summary of the complete process, dates, main barriers found, future expected, benefits/risks and other comments.

Area 1.C
• The minimum set of deliverables should be defined by the applicant(s) together with a short description of the content, their link with the project plan, the expected delivery date and periodicity. Indicative deliverables may be the commercially available enabler (hardware/software/certification) and/or operational implementation of the new EGNOS based operation. It shall also include one demonstration or other dissemination activity of the project result upon request by GSA.

Area 2.A
• Hardware/software architecture
• Final Report including: summary of the complete process, dates, main barriers found, future expected, benefits/risks and other comments.

Area 2.B
• Hardware/software architecture
• Final Report including: summary of the complete process, dates, main barriers found, future expected, benefits/risks and other comments.

Area 3.A
• Hardware/software architecture
• Final Report including: summary of the complete process, dates, main barriers found, future expected, benefits/risks and other comments.

Area 3.B
• Hardware/software architecture
• Final Report including: summary of the complete process, dates, main barriers found, future expected, benefits/risks and other comments.

3.3. Project Workflow

During an indicative 24 months of activity, the project shall foresee intermediate milestones reflecting as far as possible the workflow described below.

The proposed workflow should in principle contain the following milestones:

1. Kick-Off Meeting (KOM): The primary objective of the meeting is to present the review procedure and organisation.

2. Mid Term review (MTR): The objective of this review is to assess the design of the solution and architecture for implementation, as well as the implementation and validation plans;

Reference updated in Corrigendum no 1
3. Final Review (FR): The primary objective of this review is to conclude the project. The milestone shall be held at the end of the project activities.

3.4. Outputs expected from the implementation of activities

The proposals shall aim at fostering the operational use of EGNOS in transport and contributing to EU priorities, as described in the objectives of the action. All the deliverables (as listed in section 3.2), will be used by EU and GSA in accordance with Articles I.9 and II.9 of the Grant Agreement.

4. TIMETABLE

Tentative starting date for the action is in Q4 2021, unless the applicants can demonstrate the need to start the action before the agreement is signed; in such cases, applicants must request and receive the GSA’s written authorisation prior to the start of the action.

Indicative duration of the action under (each) grant agreement: 2 years

This call for proposals shall be conducted according to the following indicative timetable:

<table>
<thead>
<tr>
<th>Stages</th>
<th>Date/time or indicative period</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Publication of the call</td>
<td>29 March 2021</td>
</tr>
<tr>
<td>b) Deadline for request for clarifications</td>
<td>7 June 2021</td>

5. EU FINANCING

Maximum budget allocated for EU financing under this action: EUR 3,000,000 with the possibility to extend to € 10,000,000 pending budget availability

Indicative number of projects: 6 with the possibility to extend to 20 pending budget availability

Maximum EU co-financing rate of eligible costs: 60%

Publication of the call does not guarantee the availability of funds for the above action and it places no obligation on the GSA to award grants to any applicant.

The GSA reserves the right to award a grant of less than the amount requested by the applicant. In such a case, the applicant(s) will be asked either to increase their co-financing, propose other co-financing means or to decrease the total costs without altering the substance of the proposal. Grants will not be awarded for more than the amount requested.

8 Reference updated in Corrigendum no 1
6. ROLES AND TASKS OF APPLICANT(S)

6.1. Entities involved in the activities subject to the proposal

The proposal shall clearly identify the entities (legal and/or natural persons) to be involved in the activities subject to the proposal, being the applicant(s) (including coordinator and co-applicants) as well as any third parties, such as affiliated entities and subcontractors and their contributions to the implementation of the proposal under the grant agreement. Parties’ participation in the project will be subject to the requirements as laid down in this Call for Proposals.

6.2. Single Applicant

In case the proposal is submitted by a single applicant, it will be considered as mono-beneficiary grant if the proposal is selected for award.

6.3. Coordinator

If the proposal is submitted by a group of several co-applicants they will form a consortium and will become consortium members. The consortium members (multi-beneficiaries) should choose amongst them a lead organisation, referred to as the “Coordinator”.

The coordinator submits the application on behalf of the consortium and will be the intermediary for all communication between the co-beneficiaries and the GSA as well as responsible for supplying all documents and information to the GSA in due time upon request.

The grant agreement shall be signed by the coordinator of the successful consortium, provided that a mandate (Annex IV of the grant agreement) has been provided to it by each co-applicant. Such mandates shall be annexed to the grant agreement.

The coordinator will also be responsible for distribution of payments received from the GSA to the co-beneficiaries.

6.4. Co-applicant(s)

Each co-applicant will be considered as co-beneficiary if the proposal is selected for award. Before signature of the grant agreement, all applicants within the consortium shall agree upon appropriate arrangements between themselves for the proper performance of the specific actions. Co-applicants shall immediately inform the coordinator of any event which can substantially affect or delay the implementation of the action. The coordinator will inform the GSA in accordance with the grant agreement and will ensure compliance with all the terms and conditions provided in the draft grant agreement.

The coordinator and all co-applicants forming the consortium must satisfy the eligibility criteria.

6.5. Affiliated entities

Legal persons having a legal or capital link with the applicant(s), which is neither limited to the action nor established for the sole purpose of its implementation, may take part in the action as affiliated entities, and
may declare eligible costs. For that purpose, the applicant(s) shall identify such affiliated entities in the application forms and in the proposal.

Each affiliated entity shall have to comply with the same eligibility and non-exclusion criteria as those applying to the applicant(s) and submit the same forms, including the forms proving the financial and operational capacity (see section 10.1 and 10.2 below).

6.6. Subcontractors

Subcontracting\(^9\) refers to contracts concluded for the externalisation of specific tasks or activities which form part of the action.

The beneficiaries remain solely responsible for the implementation of the action. Subcontracting is not allowed among the beneficiaries in the project.

Please note that the applicants must have the necessary operational capacity to perform the project themselves. The operational capacity will be assessed at the time of the evaluation of the proposal (please refer to section 9.2 below).

Subcontracting of specific tasks or activities (i.e. the externalisation) which form part of the action as described in the proposal must satisfy the conditions applicable to any implementation contract (as specified above) and in addition to them the following conditions:

a. it may only cover the implementation of a limited part of the action and **shall in no case cover core activities as described in Section 3.1\(^{10}\);**

b. it must be justified having regard to the nature of the action and what is **necessary for its implementation**;

c. it must be clearly **stated in the proposal**.

The beneficiaries must award the subcontract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retain the relevant documentation for the event of an audit. The sub-contract shall be awarded in accordance with the conditions set in the grant agreement. Entities acting in their capacity of contracting authorities in the meaning of Directive 2014/24/EC\(^11\) or contracting entities in the meaning of Directive 2014/25/EC\(^12\) shall abide by the applicable national public procurement rules.

---

\(^{10}\) Reference updated in Corrigendum no 1

\(^{12}\) Directive 2014/25/EC on procurement by entities operating in the water, energy, transport and postal services sectors and repealing Directive 2004/17/EC.
The subcontracted tasks must be set out in the description of the action (i.e. form B1 and Annex I to the grant agreement) and the estimated costs of subcontracting must be stated in the estimated budget (Form C1 and Annex III to the Grant Agreement). However, approval of subcontracting by GSA (whether at the time of the evaluation of proposal or later during the implementation of the action) does not automatically mean that the related costs will be considered eligible and reimbursed. The costs will need to comply with the eligibility criteria indicated in the grant agreement (see also point 2.8 in section 12.2 below) in order for them to be reimbursed.

Any recourse to subcontracting if not provided ex ante in the Description of the Action (Annex I to the Grant Agreement) shall be communicated to the GSA for approval in accordance with the provisions of the signed Grant Agreement.

It is not necessary to have already selected subcontractors at the time the proposal is submitted.

7. ADMISSIBILITY REQUIREMENTS

Applications must comply with all of the following conditions in order to be admissible:

- Applications must be sent no later than the deadline for submitting applications referred to in section 18,
- Applications must be submitted in writing, using the submission set described in section 17,
- Applications must be drafted in one of the EU official languages with a preference to English. For further information please refer to Section 18 below,
- Applications must respect the maximum rate for EU co-financing.\(^{13}\)

In this context, any project directly or indirectly contrary to EU policy or against public health, human rights or against citizen’s security will be rejected.

8. ELIGIBILITY CRITERIA

Applicants must comply with all of the eligibility criteria set out in this section.

8.1. Eligible applicants

- Legal persons established\(^ {14}\) in and/or natural person(s) who is national of one of the following countries are eligible:
  - EU Member States
  - Switzerland, Norway

\(^{13}\) Proposals exceeding the applicable maximum EU co-financing rate for this call (see section 4) shall not be considered further and will be rejected.

\(^{14}\) Established should be understood as having a registered office, central administration or principal place of business in one of these countries.
Corporate bodies must be properly constituted and registered under their applicable law. When an applicant does not have a legal personality, a physical person must be designated to provide the legal responsibility.

The single applicant (see ref. to section 6.2), the coordinator (see ref. to section 6.3) and all co-applicants (see ref. to section 6.4) forming the applicant consortium, as well as the affiliated entities (see ref. to section 6.5) shall satisfy the same eligibility criteria.

8.2. Multi-beneficiary proposal - Structure of the consortium

In the case of multiple co-applicants, the coordinator will submit the proposal on behalf of the consortium.

The proposal must be submitted by a consortium composed of at least two (2) entities out of which:
- the coordinator shall be a legal person;
- the co-applicant(s) can be either a legal and/or a natural person(s).

The grant agreement shall be signed by the coordinator of the successful consortium, provided that a mandate (Annex IV of the grant agreement) has been provided to it by each co-applicant. Such mandates shall be annexed to the grant agreement.

8.3. Supporting documents proving compliance with the eligibility criteria

➢ The single applicant and the coordinator, who will be receiving payments on behalf of the consortium of beneficiaries and shall be responsible for distributing payments to the co-beneficiaries, shall provide:

- A duly filled Financial Identification Form (FIF),
  Which can be downloaded from the following website:
  It must be duly filled in and signed, and either include the bank’s stamp and signature or be accompanied by the relevant bank statement.

➢ All the applicants and any affiliated entities shall provide the following supporting documents to establish their eligibility:

- A duly filled and signed Legal Entity Form (LEF) accompanied by the relevant evidence (see below) of the applicant’s legal status.
  A specific form in all official languages of the EU can be downloaded from the following website (use of the English form is preferred):

- In addition to the above:
  - private legal person(s): extract from the official journal, copy of articles of association, extract of trade or association register and a copy of the certificate of liability to VAT (if, as in certain countries, the trade register number and VAT number are identical, only one of these documents is required);
public legal person(s): a copy of the resolution, law, decree or decision establishing the public body, or as an alternative, any other official document establishing the public legal person by the national authorities may be submitted;

- a natural person(s): legible photocopy of identity card and/or passport OR an official VAT document (if applicable).

Applicant(s) may participate in multiple applicant consortia if the actions covered in the respective Technical Proposals (B1 form) are different from each other in order to comply with the principle of non-cumulative financing and award.

9. EXCLUSION CRITERIA

APPLICANTS MUST COMPLY WITH ALL OF THE EXCLUSION CRITERIA SET OUT IN THIS SECTION.

Article 135, 136, 137, 138, 139, 140, 141, 142 of the Financial Regulation\(^\text{15}\) shall apply to applicants.

9.1. Exclusion from participation

Exclusion criteria are specified in the standard Declaration of Honour (A4 Form) of this call and apply to all applicants and all affiliated entities (see ref. to section 6.5).

9.2. Exclusion from award

Applicants will not be granted EU funds if, in the course of the grant award procedure, they:

- are in exclusion situation established in the A4 form;
- have misrepresented the information required by the GSA as a condition of participation in the grant award procedure or fail to supply this information upon request by the GSA;
- were previously involved in the preparation of the call for proposal documents where this entails a distortion of competition that cannot be remedied otherwise.

Administrative and financial penalties may be imposed on applicants that are guilty of misrepresentation.

9.3. Supporting documents proving compliance with exclusion criteria

All applicants and any affiliated entities must sign and submit a Declaration of Honour (A4 Form).

Please note that according to this A4 Form, the successful applicants may be required to send a number of supporting documents related to aspects of the Declaration of Honour before the respective grant agreement can be signed. Collecting these supporting documents may take some time and applicants shall ensure their timely availability for performing this requirement accordingly.

Applicants shall not make any modifications/deletions to the Declaration of Honour (A4 Forms). If a part of the Declaration of Honour is considered not applicable (e.g. due to the legal structure of the applicant), the applicant shall inform and request a confirmation from the GSA in this regard.

10. SELECTION CRITERIA

APPLICATIONS MUST COMPLY WITH ALL OF THE SELECTION CRITERIA SET OUT IN THIS SECTION.

10.1. Financial capacity

Applicants must have stable and sufficient sources of funding to maintain their activity throughout the period during which the action is carried out. The applicants' financial capacity will be assessed on the basis of the following supporting documents to be submitted with the application by each applicant and affiliated entity (thresholds shall apply to each applicant):

a) grant amount < EUR 750 000:
   - a Declaration of Honour (A4 Form) and,
   - a table provided for in the application form (A5 Form), filled in with the relevant statutory accounting figures, in order to calculate the ratios as detailed in the form. For newly created legal persons, a business plan might replace the above documents.

b) grant amount ≥ EUR 750 000:
   - in addition to the above, an audit report produced by an approved external auditor, where it is available, and always in cases where a statutory audit is required by Union or national law, certifying the accounts for the last three available financial years. In all other cases, the applicant shall provide a self-declaration signed by its authorised representative certifying the validity of its accounts for the last three available financial year.

On the basis of the documents submitted, if the GSA considers that financial capacity is not satisfactory and in any other case the GSA may deem it appropriate, it may:
- request further information;
- propose a grant agreement without pre-financing;
- propose a grant agreement with a lower percentage of a pre-financing;
- propose a grant agreement with a pre-financing covered by a bank guarantee;
- reject the application.

The verification of the financial capacity shall not apply to:

- natural persons in receipt of education support;
- natural persons most in need, such as unemployed persons and refugees, and in receipt of direct support;
- public bodies, including Member State organisations;
- international organisations;
- persons or entities applying for interest rate rebates and guarantee fee subsidies where the objective of those rebates and subsidies is to reinforce the financial capacity of a beneficiary or to generate an income.
- Low value grants.

10.2. Operational capacity (B2 Form)
The applicant(s) shall demonstrate a balanced expertise in the areas needed to carry out the activities defined in section 2.

Applicants must show they have the **operational (technical and management) capacity** to complete the activities to be supported by this Call for Proposal and must **demonstrate their capacity to manage the activities** corresponding to the size of the project for which the grant is requested.

In particular:
- The team responsible for the activities must have a relevant technical competence,
- Applicant(s) must have a high degree of specialisation in the areas pertaining to the activities subject to the proposal,
- Applicant(s) must prove that they are able to carry out all tasks in the relevant area(s) of activities they apply in,
- Applicant(s) must prove that they have at their disposal technical infrastructures (relevant design and/or development and/or testing tools) necessary to perform the implementation.

In this respect, applicants have to submit in B2 Form the following elements:
- description of the profile of the individuals primarily responsible for managing and implementing the activities;
- description of the technical equipment, tools or facilities at the disposal of the applicant;
- description of the role of each applicant (coordinator, co-applicants and affiliated entities) in the organisational structure in general and regarding the performance of activities subject to grant agreement.

**The above requirements apply also to every affiliated entity.**

### 11. AWARD CRITERIA

Applications will be assessed on the basis of the following criteria. When assessing the below award criteria, the evaluation committee shall use the elements indicated below for each criterion.

<table>
<thead>
<tr>
<th>AWARD CRITERIA</th>
<th>Max. Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Relevance of the proposal to the objectives of the call and credibility of the proposed approach</td>
<td><strong>35</strong></td>
</tr>
<tr>
<td>Overall quality of the proposal in terms of completeness, level of detail and innovation</td>
<td></td>
</tr>
<tr>
<td>Involvement and endorsement of key stakeholders (e.g. competent authority)</td>
<td></td>
</tr>
<tr>
<td>Feasibility of the proposal targeting operational implementation</td>
<td></td>
</tr>
<tr>
<td>Impact in terms of economic and public benefits derived from the proposal;</td>
<td><strong>35</strong></td>
</tr>
<tr>
<td>Maximisation of the safety and operational use of EGNSS in the short and long term</td>
<td></td>
</tr>
<tr>
<td>Public and economic benefits resulting from rationalisation of ground transport infrastructure</td>
<td></td>
</tr>
<tr>
<td>Creation of new business opportunities for EU players and contribution to EU strategic priorities</td>
<td></td>
</tr>
<tr>
<td>Coherence and effectiveness of the work plan, including appropriateness of the allocation of tasks and resources</td>
<td><strong>30</strong></td>
</tr>
</tbody>
</table>

16 To highlight the relevant competencies for this Call for Proposal please use the europass CV template which can be accessed here: [https://europass.cedefop.europa.eu/de/documents/curriculum-vitae/templates-instructions](https://europass.cedefop.europa.eu/de/documents/curriculum-vitae/templates-instructions)

12. LEGAL COMMITMENTS

Applicants are reminded:

The successful applicants shall be bound by the Special and General Conditions of the draft grant agreement. Submission of a grant application (proposal) implies the acceptance of these Special and the General Conditions (see Annex 2 of the Grant Agreement). This also includes the obligation of the provision of accurate, sincere and complete information within the context of this grant procedure including but not limited to filling out the provided forms with true, correct and complete data representing the real status of the applicant.

In the event of a grant awarded by the GSA following this call, a grant agreement drawn up in Euro and detailing the conditions and level of funding will be sent to the mono-beneficiary or coordinator of the consortium (as the case may be), alongside a description of the procedure in view to formalise the obligations of the parties.

In case of a consortium, the coordinator, representing the awarded consortium, on the basis of duly provided powers of attorney (Mandate – Annex IV of the grant agreement) shall sign 2 (two) copies of the original agreement.

In case the GSA requests the below documents the applicant shall make them available to the GSA within the relevant deadlines. The GSA reserves the right to cancel the award and/or the grant agreement signature process and re-allocate the budget in case of untimely submission. In particular:

1. All supporting documents pertaining to the Declaration of Honour (A4 form) for each co-applicant (and affiliated entity if the case may be) in due time upon request by the GSA after the receipt of such request;
2. Signed grant agreement by the coordinator accompanied by the mandate -- Annex IV of the grant agreement for each co-applicant at the latest 1 (one) month after the coordinator’s receipt of the grant agreement for signature.

Applicants are reminded to start immediately the collection of the supporting documents for the relevant points in the Declaration of Honour upon GSA’s request, bearing in mind that particularly for large consortia, the collection of documents may be very time-consuming.

13. FINANCIAL PROVISIONS

18 Articles 180 and 201 of the Financial Regulation
19 Please refer to section 9.3
When preparing their proposal, applicants shall observe the elements described in the following subsections for calculating the required budget for the implementation of their project.

### 13.1. General principles

**Non-cumulative award**
Each action may give rise to the award of only one grant from the budget to any applicant.

In no circumstances shall the same costs be financed twice by the European Union budget.

Applicants have to inform the GSA immediately of any multiple applications and multiple grants relating to the same action. The applicants shall inform about sources and amounts of EU funding received or applied for the same action or for part of the action. Applicants shall indicate if they receive EU funding for their functioning during the financial year in which the action takes place.

**Non-retroactivity**
No grant may be awarded retroactively for actions already completed.

A grant may be awarded for an action which has already begun, provided the applicant can demonstrate the need to start the action before the grant agreement is signed. In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

**Co-financing**
Grants shall involve co-financing, which implies that the resources necessary to carry out the action shall not be provided entirely by EU contribution. EU financing may not cover 100% of the total costs of the action.

Co-financing of the action may take the form of:
- the awarded beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

Co-financing may also take the form of in-kind contributions from third parties, i.e. non-financial resources made available free of charge by third parties to the awarded consortium as the corresponding costs are not eligible.

**No-profit rule**
EU grant may not have the purpose or effect of producing a profit within the framework of the action or the work programme of the beneficiary.

For this purpose, **profit is defined as a surplus of the receipts over the eligible costs incurred by the beneficiaries**, when the request is made for payment of the balance. Where such a surplus occurs, the GSA is entitled to recover the percentage of the profit corresponding to the EU contribution to the eligible costs actually incurred by the beneficiaries to carry out the action.

---

20 Article 193 of the Financial Regulation
21 Article 190 of the Financial Regulation
22 Article 192 of the Financial Regulation
23 The no-profit principle shall not apply to actions indicated in Article 192 (3) of the Financial Regulation.
Balanced budget
The estimated budget of the action is to be attached in excel format to the application form following the model provided in the Form C1.

It must have revenue and expenditure in balance. The amounts must be expressed in Euro with maximum two decimals.

Applicants (and affiliated entities) with general accounts in a currency other than the euro must convert costs incurred in another currency into euro at the average of the daily exchange rates published in the C series of Official Journal of the European Union, determined over the corresponding reporting period (available at http://www.ecb.europa.eu/stats/exchange/eurofxref/html/index.en.html).

If no daily Euro exchange rate is published in the Official Journal of the European Union for the currency in question, conversion must be made at the average of the monthly accounting rates established by the Commission and published on its website determined over the corresponding reporting period. http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/inforeuro_en.cfm

Applicants and affiliated entities with general accounts in Euro must convert costs incurred in another currency into Euro according to their usual accounting practices For awarded projects, the final payment will be based on the final financial report at the end of the project and supporting documents, taking into account any previous pre-financing and interim payment(s).

Financial support to third parties
The applications for this action may not envisage provision of financial support to third parties.

13.2. Funding form

GSA grants are calculated on the basis of a detailed estimated budget indicating clearly the costs that are eligible for EU funding. The grant amount may neither exceed the eligible costs nor the amount requested. Amounts are indicated in euro.

- **Maximum amount requested**
The EU grant is limited to a maximum co-funding rate of 60% of eligible costs incurred in the implementation of the specific actions taking into account the maximum grant amount referred to in section 5.

Consequently, part of the total eligible expenses entered in the estimated budget must be financed from sources other than the EU grant.

- **Eligible costs of the grant**
  A) Costs actually incurred by the beneficiary of a grant which meets all the following criteria:
  - they are incurred during the duration of the action, as indicated in the grant agreement, with the exception of costs relating to the preparation of the final reports and audit certificates;
  - they are indicated in the estimated budget of the action;
  - they are necessary for the implementation of the action, in accordance with the description of the action, attached to the grant agreement;
  - they are identifiable and verifiable, in particular being recorded in the accounting records of the beneficiary and determined according to the applicable accounting standards of the country

24 Article 196 (1) e) of the Financial Regulation
where the beneficiary is established and according to the usual cost accounting practices of the beneficiary;

- they comply with the requirements of applicable tax and social legislation;
- they are reasonable, justified, and comply with the principle of sound financial management, in particular regarding economy and efficiency.

The same criteria apply to the affiliated entities.

B) Costs declared on the basis of an amount of EUR per unit as specified in Annex X of this Call for Proposals for the beneficiaries which satisfy any of the following two criteria:

- personnel costs of owners of small and medium-sized enterprises (SME) who do not receive a salary;
- personnel costs for natural persons who do not receive a salary

The beneficiary’s internal accounting and auditing procedures must permit direct reconciliation of the costs and revenue declared in respect of the action/project with the corresponding accounting statements and supporting documents.

Please note that the exact scope of the eligibility of costs is defined in the grant agreement, which will be signed by the successful applicant(s).

➤ Eligible direct costs

The eligible direct costs for the action are those costs which, with due regard for the conditions of eligibility set out above, are identifiable as specific costs directly linked to the performance of the action.

When preparing the proposal, applicants shall observe the elements described in the following sub-sections for calculating the necessary budget for the implementation of their project. The following categories of costs can be considered as eligible direct costs:

1. Personnel costs are:
   1.1 cost of personnel working under an employment contract
   1.2 costs of natural persons working under a contract with the beneficiaries other than an employment contract
   1.3 unit costs of owners of SMEs who do not receive a salary or natural persons who do not receive a salary

2. Other direct costs are:
   2.1 cost of travel and related subsistence allowances
   2.2 costs for equipment and other assets specifically procured for the action
   2.3 costs for equipment or other assets not procured specifically but directly used for the action—depreciation costs
   2.4 the costs for rental or lease of equipment or other assets
   2.5 the cost of using technical facilities or laboratories
   2.6 costs of consumables and supplies
   2.7 costs arising directly from requirements imposed by the grant agreement
   2.8 costs entailed by subcontracts
   2.9 costs of financial support to third parties [not-applicable]
   2.10 duties, taxes and charges
1. Personnel costs

1.1 the costs of personnel working under an employment contract with the beneficiaries or an equivalent appointing act and assigned to the action (including civil servants and other personnel of national administrations to the extent that they relate to the cost of activities which the relevant public authority would not carry out if the project concerned were not undertaken), comprising actual salaries plus social security contributions and other statutory costs included in the remuneration, provided that these costs are in line with the beneficiaries’ usual policy on remuneration. Those costs may also include additional remunerations, including payments on the basis of supplementary contracts regardless of the nature of those contracts, provided that they are paid in a consistent manner whenever the same kind of work or expertise is required, independently from the source of funding used;

Personnel costs must be calculated by the applicants/beneficiaries as follows:

\[(\text{Hourly rate multiplied by a number of actual hours worked on the action), plus for non-profit legal entities: additional remunerations to personnel assigned to the action}).\]

The total number of hours declared in EU or Euratom grants, for a person for a year, cannot be higher than the annual productive hours used for the calculations of the hourly rate. Therefore, the maximum number of hours that can be declared for the grant are:

\[
\text{(Number of annual productive hours for the year minus the total number of hours declared by the beneficiaries, for that person for that year, for other EU or Euratom grants)}
\]

The ‘hourly rate’ is calculated as follows:

\[
\text{(actual annual personnel costs for the person divided by the number of annual productive hours)}
\]

The beneficiaries must use the annual personnel costs and the number of annual productive hours for each financial year covered by the reporting period concerned. If a financial year is not closed at the end of the reporting period, the beneficiaries must use the hourly rate of the last closed financial year available.

For the ‘number of annual productive hours’, the beneficiaries may choose one of the following:

(i) ‘fixed number of hours’: 1720 hours for persons working full time (or corresponding pro-rata for persons not working full time);

(ii) ‘individual annual productive hours’: the total number of hours worked by the person in the year for the beneficiaries \(\text{[annual workable hours of the person plus overtime worked minus absences]}\). If the contract (or applicable collective labour agreement or national working time legislation) does not allow to determine the annual workable hours, this option cannot be used;

(iii) ‘standard annual productive hours’: the standard number of annual hours generally applied by the beneficiaries for its personnel in accordance with its usual cost accounting practices. This number must be at least 90% of the ‘standard annual workable hours’. If there is no applicable reference for the standard annual workable hours, this option cannot be used.
'Annual workable hours' - means the period during which the person must be working, at the employer’s disposal and carrying out his/her activity or duties under the employment contract, applicable collective labour agreement or national working time legislation.

For all options, the actual time spent on parental leave by a person assigned to the action may be deducted from the number of annual productive hours.

**Important:**
Activities that **cannot** be deducted for the calculation of the annual productive hours and that cannot be charged to the project are Sales and marketing; Preparation of proposals; Administrative time (often means “unsold” time).

1.2 The **costs of natural persons working under a contract with the beneficiaries other than an employment contract** (e.g. in-house consultants) may be assimilated to such costs of personnel, provided that the following conditions are fulfilled:

- there must be a **direct contract** between the natural person (individual) and the beneficiaries;
- the natural person works under the instructions of the beneficiaries and unless otherwise agreed with the beneficiaries through a teleworking agreement, in the premises of the beneficiary;
- the result of the work belongs to the beneficiaries;
- the costs are not significantly different from the costs of personnel performing similar tasks under an employment contract with the beneficiaries; and
- The remuneration must be based on working hours, rather than on delivering specific outputs/products. (This implies that the beneficiaries must keep records of the hours worked for the action.) Costs of natural persons working under a direct contract for a beneficiary must be calculated according to the formula: hourly rate multiplied by the number of actual hours worked on the action where hourly rate:
  - if the contract specifies an hourly rate: this hourly rate must be used;
  - if the contract states a fixed amount for the services of the natural person and the number of hours to be worked: this global amount must be divided by the number of hours to be worked for the beneficiary under that contract.

1.3 **unit costs of owners of SMEs who do not receive a salary or natural persons who do not receive a salary**

The eligible direct personnel costs declared by beneficiaries that are SMEs for their owners not receiving a salary and by beneficiaries that are natural persons not receiving a salary shall be based on a unit cost per hour worked on the action to be calculated as follows:

\[\text{Unit rate multiplied by a number of actual hours worked on the action}.\]

Each country has its own unique unit rate. These rates are specified in Annex X to this Call for proposals.

The standard number of annual productive hours per SME owner and natural person is equal to 1720 hours for persons working full time or corresponding pro-rata for persons not working full
time. The total number of actual hours worked on the action and declared, in a year, for one SME owner or natural person not receiving a salary may not be higher than the standard number of annual productive hours (1 720 hours).

**Important:**
Timesheets have to be kept from the very beginning of the project to justify the declared actual hours worked on the action. The GSA may require them to verify the request for payment validity.

2. **Other direct costs**

Other costs in general: **only costs of those items which are directly linked to the performance of the operation, identifiable and assigned to the action shall be considered under this heading.**

Those costs should include the costs of implementation contracts for ancillary services, goods etc. needed to carry out the project (e.g. dissemination of information, specific evaluation, translations, reproduction...), including the purchase of consumables and supplies. They do not cover contract that implies any externalisation of activities included in the action described in the proposal, which should be included instead as subcontracting in the relevant form.

Please note that the fact that the costs are specific to the action is the key factor that makes these costs eligible for European Union funding. More general office supplies, stamps or other stationary is comprised of the indirect costs and cannot be considered under this heading.

**All documents supporting the above costs (e.g. invoices) have to be kept from the very beginning of the project. The GSA will require them to verify the request for payment validity.**

2.1 **costs of travel** and related subsistence allowances for employees provided that these costs are in line with the beneficiaries' usual practices on travel;

Only the costs for the employee’s travel and subsistence allowances can be introduced in the budget form. Travel costs of external service providers, if applicable, are to be included in their contracts.

Subscription fees to conferences or events, where relevant, should be included in C1 form (section 2.1) Travel costs.

Reimbursement of travel costs can be requested for meetings, European conferences, etc. provided that they are in line with the usual practices of the beneficiaries and pre-approved by the GSA. The travel policy of the beneficiaries must be made in writing and apply to all business trips of the organisation. Alternatively, in the case when a beneficiary has not formalised an internal travel policy or established travel practice, they should not exceed the scales approved annually by the European Commission. These European Commission rates can be consulted on this address: [http://ec.europa.eu/europeaid/work/procedures/implementation/per_diems/index_en.htm](http://ec.europa.eu/europeaid/work/procedures/implementation/per_diems/index_en.htm)

In all cases, the costs reported should comply with the principle of economy and efficiency, meaning that travelling should be performed by the most direct and most economical route;

The costs reported should comply with the following:
- travel by the most direct and most economical route;
- travel by rail: first class;
- travel by air: economy class, unless a cheaper fare can be used (e.g. Apex);
- travel by car: reimbursed on the basis of the equivalent first class rail fare.

Flat-rate subsistence allowances cover all subsistence expenses during travel, including hotels, restaurants and local transport (taxis and/or public transport). They apply for each day of a mission at a minimum distance of 100 km from the normal place of work in the context of the project forming the subject of the grant agreement.

Please note that tips will not be considered as eligible costs.

Beneficiaries who want to declare travel costs as eligible costs of the project will have to provide the following information for each travel:

- Names or functions of the people involved;
- Journey and dates (even tentative);
- Purpose of the travel (this must refer clearly to one activity of the project);
- Subsistence costs: the total number of days of the travel x flat rate subsistence allowance (per diem) or an estimate of the real costs per day (per person);
- Cost of travel (estimation).

All necessary supporting documents, in accordance with the beneficiaries’ travel policy, have to be kept from the very beginning of the project (e.g. travel tickets, boarding passes, invoices from the travel agency, etc.) The GSA will require them to verify the validity of the request for payment. For the per diem allowances, no supporting documents are required; only a declaration of the applicant on the applicable per diem in its organisation is needed.

2.2 for equipment and other assets (new or second-hand) procured specifically for the action and in accordance with Article II.10 of the grant agreement:

a) the full purchase costs provided that they are treated as capital expenditure in accordance with the tax and accounting rules applicable to the beneficiaries and are recorded in the fixed assets account of its balance sheet OR the purchase in itself is the purpose of the action

or

b) the respective depreciation costs provided that the asset has been purchased in accordance with the conditions applicable to implementation contracts and that it is written off in accordance with the international accounting standards and international financial reporting standards, IAS/IFRS, regardless whether the beneficiary has to apply them or otherwise has diverging accounting practices.

2.3 costs for equipment or other assets (new or second-hand) not procured specifically but directly used for the action in proportion to the usage for the action and only during its duration as depreciation costs recorded in the accounting statements of the beneficiaries over the period of implementation of the action, provided that the asset is written off in accordance with the international accounting standards and the usual accounting practices of the beneficiaries.

Only depreciation for equipment which is strictly necessary for the purposes of carrying out the action can be charged as direct costs. This thus excludes any computer equipment, office
material, furniture, etc. that the applicant needs for his daily activities and that will be normally covered by indirect costs.

Only the portion of the equipment’s depreciation corresponding to the duration of the project and the rate of actual use for the purposes of the project can be taken into account by the GSA.

2.4 the costs for rental or lease of equipment or other assets only to the portion of use and limited to the duration of the action, provided that these costs do not exceed the depreciation costs of similar equipment or assets and are exclusive of any finance fee;

2.5 when using technical facilities or laboratories the above rules (2.2) to (2.4) for eligibility of costs apply accordingly;

2.6 costs of consumables and supplies, provided that they are purchased in accordance with the conditions applicable to the award of contracts necessary for the implementation of the action and are directly assigned to the action;

2.7 costs arising directly from requirements imposed by the grant agreement (dissemination of information, specific evaluation of the action, audits, translations, reproduction), including the costs of requested financial guarantees, provided that the corresponding services are purchased in accordance with the conditions applicable to the award of contracts necessary for the implementation of the action;

2.8 costs entailed by subcontracts, concluded for the externalisation of specific tasks or activities which form part of the action as described in the proposal, provided that the conditions applicable to implementation contracts are met;

Please refer to Section 6.6 for further details.

2.9 costs of financial support to third parties within the meaning of Article II.12 of the grant agreement provided that the conditions laid down in that article are met [not-applicable to this call];

2.10 duties, taxes and charges paid by the beneficiaries, notably non-deductible value added tax (VAT), provided that they are included in eligible direct costs, and unless specified otherwise in the Grant Agreement. In particular, only non-deductible VAT is eligible, except for the activities which the beneficiaries that are public bodies engage in as public authorities (prerogatives of public powers under national law).

- Eligible indirect costs
  A flat-rate amount of 7% of the total eligible direct costs of the action excluding subcontracting costs is eligible under indirect costs, representing the beneficiary's general administrative costs which can be regarded as chargeable to the action/project.

  Indirect costs may not include costs entered under another budget heading.

  Indirect costs are not eligible for beneficiaries that receive an operating grant.

25 Indirect costs = 7% * (total eligible direct costs - subcontracting)
Non-eligible costs

In addition to any other costs which do not fulfil the conditions set out above, the following costs shall not be considered eligible:

- return on capital or return generated by an investment;
- debt and debt service charges;
- provisions for future losses or debts;
- interest owed;
- doubtful debts;
- currency exchange losses;
- bank costs charged by the beneficiary’s bank for transfers from the Agency;
- costs declared by the beneficiaries in the framework of another action receiving a grant financed from the EU budget (including grants awarded by a Member State and financed from the EU budget and grants awarded by the European Commission or other EU bodies than the GSA for the purpose of implementing the EU budget); in particular, indirect costs shall not be eligible under a grant for an action awarded to a beneficiary which already receives an operating grant financed from the EU budget during the period in question;
- contributions in kind from third parties;
- excessive or reckless expenditure;
- deductible VAT;
- participation by any staff of the European Union institutions in the action
- costs incurred during the suspension of the implementation of the action;
- cost categories explicitly excluded in the work programme/call.

Calculation of the final amount of the grant

The draft grant agreement annexed to this Call for proposals specifies the calculation of the final grant and the payment arrangements. Applicants’ attention should particularly focus on the General Conditions of the draft agreement, where the eligibility conditions of costs are described. The EU grant may not have the purpose or effect of producing a profit within the framework of the action.

The final amount of the grant to be awarded to the consortium is established after completion of the action and upon approval of the request for payment containing the following documents [including relevant supporting documents where appropriate]:

- a final report providing details of the implementation and results of the action;
- the final financial statement of costs actually incurred,
- [where applicable, a certificate on the financial statements of the action and underlying accounts].

The authorising officer may also waive the obligation to provide a certificate of the financial statements and underlying accounts where an audit has been or will be directly done by the GSA’s own staff or by a body authorised to do so on its behalf, which provides equivalent assurances about the costs declared.

13.3. Payment arrangements

Arrangements for pre-financing payment corresponding to 20% of the grant amount will be further detailed in the grant agreement (see ref. to Article I.5.2).
An interim payment shall be paid to the applicant or to the coordinator (in case there is a consortium the coordinator receives the interim payment on behalf of the consortium) and is intended to cover the expenditure on the basis of a request for payment when the action has been partly carried out.

The interim payment must clear 50% of the amount of the pre-financing payment previously made. The interim payment shall not exceed 40% of the maximum grant amount. The cumulative amount of pre-financing and of the interim payment altogether must not exceed 60% of the maximum amount of the grant.

<table>
<thead>
<tr>
<th>Payment</th>
<th>Amount</th>
<th>Reporting period</th>
<th>Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-financing payment</td>
<td>20%</td>
<td>N/A</td>

</tr>
<tr>
<td>Final payment</td>
<td>min 40%</td>
<td>Final Review (FR)</td>
<td>Based on the actual requested contribution (i.e. actual expenditure).</td>
</tr>
</tbody>
</table>

GSA will establish the amount of the final payment to be made to the mono-beneficiary OR the coordinator (who receives it on behalf of the consortium) on the basis of the calculation of the final grant amount (see section 13.2 above). If the total of earlier payments is higher than the final grant amount, the applicant or the coordinator (in case of consortium) will be required to reimburse the amount paid in excess by the GSA through a recovery order.29

Please refer to the grant agreement for the terms and conditions of the payment arrangements (see ref. to Article I.5).

13.4. Pre-financing guarantee

A pre-financing guarantee for up to the same amount as the pre-financing may be requested, on a case by case basis, in order to limit the financial risks linked to the pre-financing payment. The financial guarantee, in euro, shall be provided by an approved bank or financial institution established in one of the Member State of the European Union. When the beneficiary is established in a third country, the authorising officer responsible may agree that a bank or financial institution established in that third country may provide the guarantee if he considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

The guarantee may be replaced by a joint and several guarantee by a third party or by an irrevocable and unconditional joint guarantee of the beneficiaries of an action who are parties to the same grant agreement.

The guarantee shall be released as the pre-financing is gradually cleared against interim payments or payments of balances to the beneficiary, in accordance with the conditions laid down in the grant agreement.

29 Art. 101, 115, 202 of the Financial Regulation
14. PUBLICITY

14.1. By the Beneficiaries

Beneficiaries must clearly acknowledge the European Union’s contribution in all publications or in conjunction with activities for which the allocated grants are used.

In this respect, beneficiaries are required to give prominence to the name and emblem of the GSA and of the European Union on all their publications, posters, programmes and other products realised under the grant agreement.

If this requirement is not fully complied with, the grant may be reduced in accordance with the provisions of the grant agreement.

14.2. By the GSA

The GSA will publish the following information:

a. name of the awarded applicant (in case of multi-beneficiaries- name of the consortium) and its beneficiary/beneficiaries;

b. address of the beneficiary (legal persons) or reference to the region (natural persons);

c. the subject of the grant agreement;

d. amount awarded.

Upon a reasoned and duly substantiated request by the applicants (or coordinator representing the consortium in case of multi-beneficiary project), the publication shall be waived if such disclosure risks threatening the rights and freedoms of individuals concerned as protected by the Charter of Fundamental Rights of the European Union or harm the commercial interests of the beneficiary.

15. OWNERSHIP

The attention of the applicants is drawn to the draft grant agreement, which stipulates the ownership regime of the results generated by the action.

16. DATA PROTECTION

Any personal data that may be included in the tenders received during the present procedure will be processed in accordance with (1) the applicable rules on the protection of natural persons with regard to the processing of personal data by the EU institutions, bodies, offices and agencies (currently Regulation (EU) 2018/1725) and (2) the modalities of the following privacy statement:

Identity of the controller and Data Protection Officer:

- For what concerns the processing purposes 1 and 2 below:
  - **Controller**: European GNSS Agency (GSA), Head of Market and Development Department, Janovskeho 438/2 170 00 Prague 7, Czech Republic, market@gsa.europa.eu
  - **Data Protection Officer**: GSA Data Protection Officer, Janovskeho 438/2 170 00 Prague 7, Czech Republic, dpo@gsa.europa.eu

- For what concerns the processing purpose 3 below:
Join Controllers: (1) European GNSS Agency (GSA), Head of Market and Development Department, Janovskeho 438/2 170 00 Prague 7, Czech Republic, market@gsa.europa.eu and (2) European Commission, Directorate-General for Budget of the European Commission (‘DG Budget’), DG Budget’s Data Controller BUDG-FICHER-TIERS@ec.europa.eu

Data Protection Officers: (1) GSA Data Protection Officer, Janovskeho 438/2 170 00 Prague 7, Czech Republic, dpo@gsa.europa.eu and (2) DG Budget Data Protection Coordinator BUDG-DATA-PROTECTION-COORDINATOR@ec.europa.eu

Purpose of the processing:

- the management and administration of the tender procedure;
- the preparation of the contract, only with regard to the personal data of the awarded tenderer(s);
- only with regard to the personal data of the awarded tenderer(s):
  - the registration of the necessary “legal entities” and “bank account” files in the Commission Financial System ABAC (Accrual Based Accounting)
  - the execution of payments towards the registered entities
  - the registration of the related financial transactions

Data concerned:

- Contact information of tenderers, e.g. name and last name of authorised representatives, email address, postal address, telephone numbers, company/agency/body and department, country of establishment, position
- Financial information of tenderers, e.g. bank account number, IBAN and BIC codes, address of respective bank branch, name of bank account holder
- Information that may be included in CVs of experts proposed by tenderers: name and last name of proposed experts, educational background, professional experience including details on current and past employment, technical skills and languages etc.
- Data related to criminal convictions and offences of: (1) members of the administrative, management or supervisory body of tenderers, (2) natural persons who have powers of representation, decision or control of the tenderer, (3) owners of the tenderers as defined in Article 3(6) of Directive (EU) 2015/849, (4) natural persons assuming unlimited liability for the debts of the tenderers, (5) natural persons who are essential for the award or the implementation of the contract; such data are collected through the submission of the declaration of honour (Form A4)

It is specifically noted that:

- the abovementioned processing operations will not entail the processing of any special categories of personal data. If, however, a tenderer submits such data at its own volition and without any specific request, it is implied that the data subject has given its consent to the processing of such data.
- the provision of personal data by the tenderers is a requirement necessary to enter into the FWC

Legal bases: Article 5(1)(a), 5(1)(c), 10(2)(a) and 11 of Regulation (EU) 2018/1725

Lawfulness of the processing:
- Article 5(1)(a): the processing is necessary for the performance of a task carried out in the public interest, specifically the management and functioning of the GSA through the launching of tender procedures.
- Article 5(1)(c): the processing is necessary for the performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract; the GSA processes the personal data of the tenderers at their request (through the submission of their tenders) in order to take the necessary steps prior to enter into the contract with the awarded tenderer(s).
- Article 11: the processing of personal data relating to criminal convictions and offences shall be carried out only when authorised by Union law; such processing, in the form of an extract from the judicial record or declaration of honour, is explicitly foreseen in the Financial Regulation\(^\text{30}\) (Articles 136-140)
- Article 10(2)(a): as explained above, in case any tenderer submits special categories of data at its own volition and without any specific request, it is implied that the data subject has given its consent to their processing

**Recipients of the data processed:**
- a limited number of staff of the GSA managing this tender procedure
- data processors:
  - a limited number of staff of GSA contractors assisting GSA staff in the management of this tender procedure
  - a limited number of staff of GSA contractors in charge of the provision of hosting services for the GSA’s servers
  - a limited number of staff of the Directorate-General for Budget of the European Commission (‘DG Budget’)
- bodies charged with a monitoring or inspection task in application of Union law (e.g. internal audits, Financial Irregularities Panel, European Anti-fraud Office – OLAF)
- members of the public: the winning entities will be announced to the public, which may also entail the announcement of the personal data of the representatives of such entities (e.g. name, last name)

**Information on the retention period and storage locations of personal data:**
- any information pertaining to this tender procedure shall be kept for up to 7 years following the end of the year when the contract(s) has been awarded as a result of the tender procedure; files may also have to be retained until the end of a possible audit if one started before the end of the above period;
- all collected data may be stored:
  - electronically on GSA servers with access control measures (i.e. one or two factor authentication) hosted by GSA contractors which are located in the EU and abiding by the necessary security provisions
  - physically in secure storage cupboards in the GSA HQ in Prague

\(^{30}\) Regulation (EU, Euratom) 2018/1046
o electronically and physically on the servers/cupboards of the processors identified above (all of which are established in an EU Member State)

Transfer of personal data to third countries:
In case the awarded tenderer(s) is/are established in countries outside the territory of the European Union or the European Economic Area (“third countries”), certain personal data which are necessary for the execution of payments related to the implementation of the awarded contract (i.e. name of bank account holder, bank account number) may be transferred to the third countries where the concerned tenderer(s) is/are established.

In case such transfer is made to third countries for which (1) no adequacy decision has been taken by the Commission in accordance with Article 47 of Regulation (EU) 2018/1725 and (2) no appropriate safeguards as foreseen under Article 48 of Regulation (EU) 2018/1725 exist, the legal basis for the transfer shall be considered to be Article 50(1)(b); specifically, the transfer is necessary for the performance of the contract between the awarded tenderer(s) and the GSA.

The data subjects’ rights:
- Data subjects have the right of access, rectification and erasure of their personal data or restriction of processing at any time, provided that there are grounds for the exercise of this right, as per the applicable rules
- Data subjects have the right to object, on grounds relating to his or her particular situation, at any time to the processing of personal data concerning him or her. Requests shall be addressed to the GSA Market Development Department at market@gsa.europa.eu by describing the request explicitly. It is noted that pursuant to such a request, the Controller shall no longer process the personal data unless the Controller demonstrates compelling legitimate grounds for the processing which override the interests, rights and freedoms of the data subject or for the establishment, exercise or defence of legal claims
- Data subjects may obtain their personal data, submitted to the GSA, in a structured, commonly used and machine-readable format and transmit them to another controller, provided that there are grounds for the exercise of this right, as per the applicable rules
- Data subjects are entitled to lodge a complaint at any time with the European Data Protection Supervisor (http://www.edps.europa.eu; EDPS@edps.europa.eu) if they consider that their rights under the applicable rules on the protection of individuals with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data have been infringed as a result of the processing of their personal data by the GSA
- Only in cases where the data subjects’ consent is used as the legal basis for the processing of personal data (i.e. in case they have submitted special categories of data at their own volition and without any specific request), they can withdraw their consent at any time, without affecting the lawfulness of the processing before the withdrawal

Any request for the exercise of any of the abovementioned rights shall be addressed to the GSA Market Development Department at market@gsa.europa.eu; data subjects are kindly requested to describe their requests explicitly.
17. PREPARATION AND STRUCTURE OF THE PROPOSAL

Proposals shall be prepared in accordance with the scope of the Call (section 2.2), with a clear definition of the roles (Form A1), demonstrating that the consortium is composed of all the necessary competencies needed to achieve the objectives of the Call (section 2.1).

Proposals must be submitted in accordance with the formal requirements and by the deadline set out under section 18.

Applicants will be informed in writing about the results of the selection process.

Proposals shall be prepared along the following structure:

Administrative Proposal (A1-A5):
A1 – Consortium Composition
A2 – Coordinator profile including:
   a) Legal Entity Form (LEF) together with supporting documents as described in Section 8.3
   b) Financial Identification Form (FIF) signed by the coordinator and signed and stamped by the bank
      OR a bank statement relating to the bank account
A3 – Co-Applicant profile (+ LEF) together with supporting documents as described in Section 8.3
A4– Declaration of honour
A5 – Financial capacity ratios

Technical Proposal (B1-B2):
B1 – Technical proposal (additional documents can be annexed to this form to complement the information)
B2 – Operational capacity

Financial Proposal:
C1 – Preliminary Budget

The technical proposal (B1-B2 Forms) constitutes the core of your proposal. These forms shall be submitted using the various duly completed templates provided with this call, consisting of a list of headings. It is recommended to follow this structure when presenting the technical content. The templates are designed to highlight those aspects that will be assessed against the evaluation criteria. They cover, among other things, the nature of the proposed work, the participants and their roles in the proposed project, and the impact that might be expected to arise from the proposed work. Additional information or descriptive document may be provided by applicants as an annex.

The C1 form shall be submitted in excel (.xls) format.

Please note that figures shall be indicated in C1 form. In case figures are indicated in other forms, please include a cross reference only. If inconsistencies will be present between C1 and other forms the figures in C1 form will prevail.

The A5 form shall be submitted as both PDF (.pdf) and excel (.xls) formats. For the PDF, please fill in the A5 form in excel provided, print it, sign each sheet of the excel and create a PDF.

Overview of Forms (as presented below in the table) shall be submitted by the applicant (single applicant of coordinator on behalf of the consortium) and every related actor specified below is responsible to fill
them duly in (coordinator and/or co-applicants and/or an affiliated entity). The table below reflects on who has to fill out what kind of forms. This information shall be reflected in the cover page of the A forms prepared by the single applicant/coordinator.

18. SUBMISSION OF PROPOSALS

Proposals must be submitted in accordance with the formal requirements and by the deadline set in this section.

The applicants are not allowed - in any respect - to change the scope and the content of the proposal(s), till the signature of the grant agreement. However, if there is a need to clarify certain aspects or for the correction of clerical mistakes, the GSA may contact the applicant for this purpose during the evaluation process.

The proposal may be submitted in any of the official languages of the European Union with a preference to English version.

The proposal shall always be submitted in a paper version (please see the note below).

NOTE: The proposals shall also contain 2 (two) copies of USB storage devices containing the full set of proposal documents in machine-readable format (standard Office 2003 and Adobe PDF 2008 or later). In case of doubt or outright divergence between the physically submitted proposal and the content provided in electronic format (on the USB-storage devices), the physical documents shall always take precedent.

E) Unless notified otherwise by the GSA, the proposals (including USBs) shall be submitted by letter a) either by post or by courier not later than the deadline set under section 4 above at 23:59, in which case the evidence of the date of dispatch shall be constituted by the postmark or the date of the deposit slip, to the address indicated below b) or delivered by hand not later than the deadline set under section 4 above at 23:59 Prague local time to the address indicated below. In this case, a receipt must be obtained as proof of submission, signed and dated by the GSA official who took delivery.

The GSA is open from 09.00 to 17.00 Monday to Thursday, and from 09.00 to 16.00 on Fridays. It is closed on Saturdays, Sundays and national holidays.

Applicants may submit the proposal on paper as described above or only on electronic media.

If it is submitted electronically, it shall contain 3 (three) CD-ROM, DVD or USB sticks with the full set of documents. The documents on these media must be identical and they shall be in machine readable format (MS Office 2003 or later, or Adobe Reader Version 8.0 or later). These medias must be inserted in the outer envelope as described in the tender specifications. They shall contain the following folders with the corresponding documents:

- Folder 1: ADMINISTRATIVE DOCUMENTS
- Folder 2: TECHNICAL PROPOSAL
Folder 3: FINANCIAL PROPOSAL

The electronic versions of the proposals are considered as originals. The applicants must ensure that the electronic medias and files are readable. In particular, they must take all the necessary measures to protect them during the transport to avoid any damage to them.

The applicants are advised to
- use, and include into the outer envelope, different types of media (e.g. DVD and different types of USB sticks) in order to eliminate the risk of non-readable media and files.
- create hashes of submitted files (in the form of algorithm MD5, SHA-256 or higher) and insert them, preferably as a paper printout, into the outer envelope, together with the media.
- ensure that the data on these media cannot be altered.

If the submitted media and files are not readable, the proposal will have the possibility to resubmit the media with the original files under the condition that the hashes of the files are strictly identical with the hashes which were inserted into the original outer envelope.

If the submitted media and files are not readable and the applicant does not resubmit files which are strictly identical with the above-mentioned hashes promptly upon notification by GSA that the files submitted cannot be read, the proposal will be rejected.

The documents which must be signed according to the call for proposals may be signed electronically with a qualified electronic signature (QES) of the applicant. This electronic signature must be provided by a provider which has a qualified status granted by a national competent authority of an EU Member State and which is listed in the national eIDAS Trusted Lists and the EU List of eIDAS Trusted Lists (LOTL) (available at https://webgate.ec.europa.eu/tl-browser/#/)

Proposals must be placed inside a sealed envelope. The envelope, addressed as indicated below, should be marked as follow: "CALL FOR PROPOSALS GSA/GRANT/01/2021 – NOT TO BE OPENED". If the self-adhesive envelope is used, it must be sealed with adhesive tape and the sender must sign across this tape.

Janovského 438/2, 170 00 Prague 7- Czech Republic

19. EVALUATION OF PROPOSALS, AWARD AND RESERVE LIST

19.1. Evaluation of Proposals

All applications will be examined and assessed by an Evaluation Committee. The assessment of each proposal will be based on the information provided by the applicants in the proposal submitted in reply to the call for proposals. The information will be assessed in light of the admissibility, eligibility, exclusion, selection and award criteria set out in the Call for Proposals.
The Evaluation Committee may ask an applicant to provide additional information or to clarify the supporting documents submitted in connection with the application, in particular in the case of evident material errors.

At the end of the evaluation:

- the best proposal(s) will be proposed for the award,
- placed on the reserve list in case of not available funding,
- rejected, stating the reasons for rejection.

After the completion of the evaluation, applicants will be informed in writing about the results of the evaluation.

19.2. Award of the grant agreement

The GSA may invite the applicant(s), whose proposal has been recommended for the award by the Evaluation Committee, to introduce minor adjustment to the proposal. In that case, the applicant would receive a letter setting out the proposed modifications. The modified proposal shall address the modification proposed by the GSA only. This phase will not lead to a re-evaluation of the proposal.

A decision to reject an application can be based on the following grounds:

- the application does not comply with the admissibility criteria as set out in section 6 above;
- the application does not comply with the eligibility criteria as set out in section 7 above;
- the applicant(s) does(do) not comply with the exclusion criteria as set out in section 8 above;
- the applicant(s) does(do) not comply with the technical capacity;
- the applicant(s) does(do) not comply with the financial capacity;
- the proposal has not reached the minimum scores as indicated in the award criteria detailed in the call for proposals;
- the score obtained by the proposal is not ranked amongst the best proposals considered for the award.

If the applicant believes that there was maladministration he can lodge a complaint to the European Ombudsman for alleged maladministration within two years of the date when he became aware of the facts on which the complaint is based (see http://www.ombudsman.europa.eu).

The court responsible for hearing annulment procedures is the General Court of the European Union:

General Court
Rue du Fort Niedergrünwald
L-2925 Luxembourg
tel.: (+352) 4303 1  fax: (+352) 4303 2100
e-mail: GeneralCourt.Registry@curia.europa.eu
URL: http://curia.europa.eu

19.3. Reserve list

The GSA may place proposals – which were not considered for award of the grant due to inferior score or lack of budget – on a reserve list. Should additional budgetary appropriations become available, the applicants will be informed according to their ranking on the reserve list for the potential award of the grant.
20. CONTACTS

Contacts between the GSA and potential applicants can only take place in certain circumstances and under the following conditions:

Before the final date for submission of proposals:
- At the request of the applicant, the GSA may provide additional information solely for the purpose of clarifying the nature of the call. The request cannot be made after the deadline set under section 4 above.
- Any requests for additional information must be made in writing only to the contact details stated below.
- The GSA may, on its own initiative, publish corrigenda in case of inaccuracy, omission or other clerical error in the text of the call for proposals.
- Any additional information including that referred to above will be published on the GSA internet page (http://www.gsa.europa.eu/gsa/grants) on which the call for proposals is published.

After the deadline for submission of proposals:
- If clarification is requested or if obvious clerical errors in the proposal need to be corrected, the GSA will contact the applicant provided the terms of the proposal are not modified as a result.
- If the GSA finds that the proposal, chosen for the award, could be improved by minor adaptations (see Section 18.2 above).

Contact details for the call:
GSA: Legal and Procurement Department
E-mail address: GNSS-Grants@gsa.europa.eu
Office address: GSA, Janovského 438/2, 170 00, Prague 7, Czech Republic

REMINDER: when sending any correspondence to the GSA, please refer to the subject (of the email or of the letter) to the relevant reference number of the Call: GSA/GRANT/01/2021 – the failure of doing so might delay the timely response of the GSA.
