**GSA/GRANT/02/2019**

***Shipborne double frequency multi-constellation receiver (E1/E5)***

**CLARIFICATION NOTE 2**

**WFID: 257484**

**Question no.1:** [...] Due to the uncertainty about the different quarantines across Europe during the coming weeks, we would like to kindly ask whether the proposals under this grant could be submitted electronically instead of paper version since it is unpredictable if by the submission date, our employees will be allowed to access physically to the company premises and properly prepare the requested printed documents.

**Answer:** The proposal can be submitted electronically in a CD-ROM, DVD or USB stick. For additional information and updates on submission modalities please see Corrigendum n.2.

**Question no.2:** Due to the COVID-19 situation we are having multitude unexpected problems in the availability of the key personnel preparing the proposal along our Industrial Team. This impacts strongly all the coordination and contributions preparation, avoiding to deliver on time a due quality proposal. Therefore, we kindly request an extension of the deadline to deliver the proposal until end of May.

**Answer:** The deadline to apply has been extended to 01/06/2020. For more information please see Corrigendum n. 2.
