**Question no. 1:** We want to make a proposal for Section D-Aircraft or rotorcraft retrofit, however the costs for the upgrade (including the material and the labor costs) for our fleet are below the indicative EU financing amount for each project indicated in Section 4 of the call for proposal, which is 800.000 €. Can small companies with a lower financing amount be considered?

**Answer:** Yes, the EU financing amount of 800.000 € for each project is indicative, as stated in section 4 of the call for proposal.
