

## **CORRIGENDUM NO. 1**

**INTERNAL GSA REFERENCE: WF 238878**

### **Related to GSA/GRANT/06/2017 – "EGNOS Adoption in Aviation"**

1. The Form C1 "Model Estimated Budget" is replaced to allow the applicants to input their requested reimbursement rate (up to the 60% maximum reimbursement rate of the grant). Such modification is also reflected in the Model Financial Statement.

**The applicants are required to use this updated Model Estimated Budget in their proposals.**

Article I.3.2 of the draft grant agreements is also updated to input, at the time of signature, the reimbursement rate chosen by the beneficiary.

2. In the call for proposal, the following text is amended:
  - In section 9.2. (Operational capacity (B2 Form)), the sentence "Applicants must prove that they are able to develop the necessary components of MEOSAR Beacons" is replaced by the following sentence "Applicants must prove that they are able to carry out all tasks in the relevant area(s) of activities they apply in";
  - In section 12.2 (Funding form), subsection "Eligible direct costs", the following text in brackets is deleted: [full purchase costs are not-applicable to this call, depreciation costs are applicable].
