

# Immerse yourself in space with EUSPA'S Open Days

**EUSPA/PR/23/10** Prague, 1 December 2023

**The EU Agency for the Space Programme (EUSPA) annual Open Days event are on Friday 1 and Saturday 2 December 2023 at EUSPA headquarters in Prague, Czech Republic.**

EUSPA is once again ready to invite you to the Open Days 2023! This two-day event includes activities for all ages such as interactive games for children, EUSPA introductory workshops in both English and Czech, and an immersive 3D aerial projection inside the Copernicus tunnel where visitors can learn about the benefits of Copernicus data.

For those interested in joining EUSPA, the career corner will feature talks on job opportunities and insights from EUSPA staff.

"EUSPA Open Days is designed to showcase the significant impact of the EU Space Programme and our agency in the lives of Europeans," emphasizes EUSPA Executive Director Rodrigo da Costa. "It is also part of our responsibilities as a European Union Agency and a way to better link with our hosting country, Czech Republic."

The EUSPA Open Days are also a great opportunity to celebrate an exciting year for the agency. In July 2023, EUSPA officially became responsible for the Space Surveillance and Tracking (SST) Front Desk after a decision from the European Commission.

The EUSPA headquarters are located at Janovského 438/2, 170 00 Praha 7-Holešovice. Visitors are welcome from Friday 1 December from 4.00pm to 6.00pm and Saturday from 9.00am to 6.00pm.

The timeslot of 9.00 am to 4.00 pm on Friday is reserved for school visits where nearly 800 kids are meeting experts of the Agency.

## **About the European Union Agency for the Space Programme (EUSPA)**

The European Union Agency for the Space Programme (EUSPA) provides safe and secure European satellite navigation services, promotes the commercialization of Galileo, EGNOS, and Copernicus data and services, coordinates the EU's forthcoming governmental satellite communications programme GOVSATCOM and the EU SST Front Desk. EUSPA is responsible for the security accreditation of all the EU Space Programme components. By fostering the development of an innovative and competitive space sector and engaging with the entire EU Space community, EUSPA contributes to the European Green Deal and digital transition, the safety and security of the Union and its citizens, while reinforcing its autonomy and resilience.
