

CORRIGENDUM No. 2

Internal EUSPA reference: WF [320821](#)

Related to Grant procedure: EUSPA/GRANT/01/2025

"Galileo HAS enabled Space receiver"

1. The following elements of the **Call for Proposals** are updated:

a) Section 2.2.4 – “Activities” – is updated as follows:

Initial version

Activity 4: Exploitation and dissemination

For objective no.1 the applicant shall define and implement a business plan including the detailed go-to-market approach ensuring the adoption of the developed solution(s) by the relevant stakeholders (e.g. receiver manufacturers, smartphone manufacturers, etc.) beyond the project duration.

For objective no.2 the applicant shall develop a long-term market entry strategy developing emerging GNSS receiver technologies with no immediate adoption in market.

A preliminary business plan (for objective no.1) or a preliminary market entry strategy (for objective no.2) shall be submitted together with the proposal and will be evaluated against the award criteria (see section 10). The preliminary business plan/market entry strategy shall include relevant information for the Intellectual Property Management.

In particular, the beneficiaries shall take measures to disseminate the achievements of the project among relevant stakeholders in the appropriate phases of the project. The dissemination plan shall define the strategy to engage those stakeholders with the aim of showcasing the project, fostering the innovation created in the frame of the action and creating market awareness of the project results. The preliminary dissemination plan shall be submitted together with the proposal and will be assessed against the award criteria (see section 10).

The applicants shall submit at least four (4) technical papers to international conferences. In addition, the applicants shall include a solution(s) demonstration involving all the main stakeholders and key players in order to disseminate the result

magazines and sector press, presentations, leaflets and brochures, public event(s), promotional video(s), websites, social networks, etc

After Corrigendum

Activity 4: Exploitation and dissemination

For objective no.1 the applicant shall define and implement a business plan including the detailed go-to-market approach ensuring the adoption of the developed solution(s) by the relevant stakeholders (e.g. receiver manufacturers, smartphone manufacturers, etc.) beyond the project duration.

For objective no.2 the applicant shall develop a long-term market entry strategy developing emerging GNSS receiver technologies with no immediate adoption in market.

A preliminary business plan (for objective no.1) or a preliminary market entry strategy (for objective no.2) shall be submitted together with the proposal and will be evaluated against the award criteria (see section 10). The preliminary business plan/market entry strategy shall include relevant information for the Intellectual Property Management.

In particular, the beneficiaries shall take measures to disseminate the achievements of the project among relevant stakeholders in the appropriate phases of the project. The dissemination plan shall define the strategy to engage those stakeholders with the aim of showcasing the project, fostering the innovation created in the frame of the action and creating market awareness of the project results. ~~The preliminary dissemination plan shall be submitted together with the proposal and will be assessed against the award criteria (see section 10).~~

The applicants shall submit at least four (4) technical papers to international conferences. In addition, the applicants shall include a solution(s) demonstration involving all the main stakeholders and key players in order to disseminate the results on magazines and sector press, presentations, leaflets and brochures, public event(s), promotional video(s), websites, social networks, etc

b) Section 16.2.2 – “Technical Proposal (B1)” – is updated as follows:

Initial version

Technical Proposal shall be submitted filling in form B1.

The technical proposal (B1 Form) constitutes the core of your proposal. The form shall be submitted using the template provided with this call, consisting of a list of headings. It is recommended to follow this structure when presenting the technical content. The templates are designed to highlight those aspects that will be assessed against the evaluation criteria. Additional information or descriptive document may be provided by applicants as an annex.

After Corrigendum 1

Technical Proposal shall be submitted filling in form B1.

The technical proposal (B1 Form) constitutes the core of your proposal. The form shall be submitted using the template provided with this call, consisting of a list of headings. It is recommended to follow this structure when presenting the technical content. The templates are designed to highlight those aspects that will be assessed against the evaluation criteria. Additional information or descriptive document may be provided by applicants as an annex.

As part of the Technical Proposal, applicants shall submit the preliminary Business Plan (for Objective no. 1) or a preliminary Market Entry Strategy (for Objective no. 2) as required under Section 2.2.4 of the Call.
