

**CLARIFICATION NOTE #3**

**WFID: 215121**

**Relating to Procurement Procedure GSA/NP/04/15 – “Aviation DFMC SBAS Receiver Prototype”**

**Question #6: Could you please clarify if the composition of the tendering team is allowed to change (members in, and/or members out, and/or volume of work for each team member) between the initial tender and the BAFO?**

**Answer:** Until the submission of the BAFO the composition of the tendering team may be changed and the allocation of work/its volume may be adjusted. However, tenderers shall be required to always uphold their eligibility (compliance with the exclusion and selection criteria) to participate in the tender – in case of a change of individual team members, they shall provide any documents which may be required to proof that their eligibility is not affected. The GSA reserves the right to re-assess the eligibility of the tenderers as may be required. Lack of the tenderer’s eligibility at submission of the BAFO results in exclusion from the procurement process.
