

INVITATION TO TENDER No. GSA/OP/08/12

"Provision of support to the GSA in the system user segment development and stakeholder management"

Clarification 1 – ALL LOTS – Price Offer

Due to a clerical error, the price offer table included in Annex II-B indicated "25" as the workload (in days) of the category Director. The workload shall however be read as "20".

Annex II-B table shall therefore be modified as follows:

Art ref	Profile	Workload (in days)	Price per man-day ¹	Total (€)
		A	B	C=A*B
1	Director, Partner	20	€	€
2	Senior Consultant	45	€	€
3	Technician, Analyst	35	€	€
PRICE OF THE BID				€
Stamp, date and signature of the Tenderer				

Clarification 2 – LOT 4 – Technical selection criteria – Security clearance

In part VII.3.2.4 (TECHNICAL AND PROFESSIONAL CAPACITY CRITERIA - LOT 4), the second criterion initially requires "Security clearance and capacity to handle classified information and documents (proof and/or copy of relevant documents shall be provided in the offer)".

¹ Man-day is defined as an 8-hour working day

However, due to a clerical error, this requirement shall be read as "Ability to obtain a Security clearance and capacity to handle classified information and documents (proof and/or copy of relevant documents shall be provided in the offer)".

In case of grouping, this requirement may be fulfilled by any member of the consortium/grouping. However, tenderers shall note that in the course of the contract, certain tasks or handling of documents might only be managed by personnel holding a valid security clearance.
