Should the invoice indicate an overlap, the Contracting Authority may reject the higher of the invoiced amounts for the resource, activities, costs or expenses affected by the overlap provided it has prior informed the Contractor about such intention in writing, including reasons for the assumed overlap and the Contractor, following a 10 (ten) days notice period after receipt of the Contracting Authority's observations could not explain to the Contracting Authority's conviction, that the overlap does not exist.

- (d) invention declaration form, using the template under Annex II.VII;
- (e) if possible, information whether the Contractor intends to file a patent application for the notified invention, if the Agency authorizes it to do so.

I.13.10 The Contractor shall take measures to ensure that the invention is not disclosed to persons and bodies other than those with the need to know and bound by a confidentiality obligation until:

- (a) The Agency authorizes the Contractor to file a patent application for the notified inventions in its own name; or
- (b) The date of publication of the patent application by the patent office, if the Agency does not authorize the Contractor.

I.13.11 The Contractor shall not undertake, any activity having the purpose or the effect of restricting the European Union's rights under the invention or its registration process, including through protecting or attempting to protect any intellectual property right related or connected with the invention.

I.13.12 The Contractor shall not be entitled to any residual intellectual property rights in the notified invention.

I.13.13 The Contractor shall provide technical support in the drafting of the patent application. The latter obligation does not extend beyond twelve months from the time the Commission receives the complete notification of the invention. The Contractor shall provide technical assistance in the patent prosecution process. If the Commission files the patent application within twelve months from the time it receives the complete notification of the invention. This duty of the Contractor does not extend beyond forty-two months from the time the Commission receives the complete notification of the invention according to paragraph 1, or twelve months after the expiration or termination of the Contract, whichever is the longer period.

I.13.14 The European Commission or the Contracting Authority, as per article I.13.4 above, shall retain all rights in the invention unless EUSPA notifies in writing the Contractor, within four (4) months from the time it receives the complete notification that it authorizes the Contractor to file a patent application for the notified invention in its own name.

I.13.15 If the Contractor after authorization from the Commission, files a patent application for the notified invention, it shall, with its own responsibility, license the patent application or the ensuing patent on fair, reasonable and non-discriminatory (FRAND) terms to economic operators involved in the deployment/development and exploitation of the systems, including applications. The Contractor shall negotiate the license terms in good faith with every willing licensor. In case agreement on license terms cannot be reached within six (6) months from the time the willing licensor declares in writing its interest to license the patent, the terms of the license shall be decided by recourse to arbitration. The Contractor is entitled to enforce its patent through litigation in front of national courts only if the willing licensor refuses to enter into binding arbitration agreement with respect to the terms of the license.

For the patentable inventions, the Contractor shall provide for the European Union and for the EUSPA a non-exclusive, royalty-free license to a patent application or a patent with the right to grant sublicenses for the purposes of the EU Space Programme and space component of Horizon Europe.

BACKGROUND IPRS

I.13.15 The Contractor must declare Background IPRs before the start of performance of tasks and creation of the Results. The information shall include identification of the rights' owners. With prior written agreement of the Contracting Authority, the Contractor may declare the Background IPRs later but at the latest together with the invoice for payment of the balance. The Contracting Authority may require that the Contractor provide it with relevant and exhaustive evidence of the acquisition of all the necessary Background IPRs together with a presentation of the Result.

I.13.16 The Contracting Authority does not acquire ownership of Background IPRs. The Contractor licenses the Background IPR on a royalty-free, non-exclusive and irrevocable basis to the Contracting Authority, which may use the Background IPRs which is necessary for exploitation of the results, as described notably in Article I.13.6, or for exploitations mentioned in the Specific Contracts. Unless otherwise agreed, the licence is non-transferable and cannot be sub-licensed, except as provided hereafter:

- a) the Background IPR can be sub-licensed by the Contracting Authority to persons and entities working for it or cooperating with it, including its contractors and subcontractors, whether legal or natural persons, but only for the purpose of their projects for the Union or the Contracting Authority;
- b) if the Result is a "document" such as a report or a study, the existence of Background IPRs in the result may not prevent the use, communication to third parties or publication of the document, its translation or its "reuse", it being understood however that the "reuse" may only be made of the Result as a whole and not of the Background IPRs taken separately from the Result; for the sake of this provision, "reuse" and "document" have the meaning given by the Commission Decision of 12 December 2011 on the reuse of Commission documents (2011/833/EU).

All Background IPR are licensed to the Contracting Authority from the moment the Results are delivered and approved by the Contracting Authority. The licensing of Background IPR under this FWC covers all territories worldwide and is valid for the duration of intellectual property rights protection. The payment of the price as set out in the Specific Contracts is deemed to also include any fees payable to the Contractor in relation to the licensing of Background IPR to the Contracting Authority, including for all forms of exploitation and of use of the Results.

I.13.17 Where COTS products and open source software are concerned and/or the standard license terms of a third-party vendor apply, the Contractor shall ensure that such license shall grant to the Contracting Authority the right and license to use such COTS and open source software to the extent as set out in Article I.13.16.

I.13.18 Where implementation of the FWC requires that the Contractor uses IPR belonging to the Contracting Authority, the Contracting Authority may request that the Contractor signs an adequate licence agreement. Such use by the Contractor will not entail any transfer of rights to the Contractor and is limited to the needs of this FWC.

I.13.19 When delivering the results, the Contractor must warrant that, for any use that the Contracting Authority may envisage within the limits set in this FWC, the newly created parts and the Background IPRs incorporated in the results are free of claims from Creators or from any third parties and all the necessary Background IPRs have been obtained or licensed.

I.13.20 During the FWC and after its termination or expiry, the Contractor shall inform the Contracting Authority of any important modification or improvement of software protected by Background IPR, necessary to use the Results, and its documentation. During the FWC, the Contractor shall provide the Contracting Authority with these modifications and improvements without additional cost. After the termination or expiry of FWC the Contractor shall offer to the Contracting Authority the possibility to negotiate the availability of such modification or improvement at FRAND Terms. This obligation shall cease five years after the expiration of the Contract.

MORAL RIGHTS OF CREATORS

I.13.21 By delivering the Results, the Contractor warrants that the Creators will not object to the following on the basis of their moral rights under copyright:

- a) that their names be mentioned or not mentioned when the results are presented to the public;
- b) that the Results be divulged or not after they have been delivered in their final version to the Contracting Authority;
- c) that the Results be adapted, provided that this is done in a manner which is not prejudicial to the Creator's honour or reputation.

If moral rights on parts of the Results protected by copyright may exist, the Contractor must obtain the consent of Creators regarding the granting or waiver of the relevant moral rights in accordance with the applicable legal provisions and be ready to provide documentary evidence upon request.

I.13.22 The Contractor warrants that the use of Foreground IPRs and Background IPRs in accordance with this Article will not infringe any IPR of any third party. The Contractor shall indemnify and hold the Contracting Authority, its assignees, and licensees, free and harmless of any claims for infringement of third party rights in connection with the use of Foreground IPRs and Background IPRs as set out in the Articles above, except where the Contractor demonstrates that the infringement is caused by the unauthorized adaptations or modifications made by the Contracting Authority, its assignees, and licensees.

ARTICLE I.14 – LIQUIDATED DAMAGES

I.14.1 The Contracting Authority may impose liquidated damages should the Contractor fail to complete its contractual obligations, within the applicable time limits set out in the FWC, including, without limitation, the compliance with the obligation to change the Service Providers within the time limits specified in Article I.18.

I.14.2 Unless otherwise agreed in the Specific Contract, should the Contractor fail to perform its contractual

obligations within the time limits set by the FWC or the relevant Specific Contract, then, without prejudice to the Contractor's actual or potential liability or to the Contracting Authority's right to terminate the FWC or the relevant Specific Contract, the Contracting Authority may impose liquidated damages for each and every calendar day of delay according to the following formula:

$0.03 \times (V/d)$

V is the price of the relevant Specific Contract;

d is the duration specified for delivery of the relevant Specific Contract, including, without limitation the implementation of an exchange of Service Provider, or, failing that, the period between the date specified in Article I.3.9 and the date of delivery or performance specified in the relevant Specific Contract, expressed in days. The overall aggregate amount of liquidated damages which may be imposed per Specific Contract shall not exceed 5% of the price of the relevant Specific Contract.

I.14.3 The parties acknowledge that any sums payable under this article are in the nature of liquidated damages and not penalties, and represent a reasonable estimate of fair compensation for the losses incurred due to failure to fulfil obligations which may be reasonably anticipated.

I.14.4 Liquidated damages may be imposed together with a partial payment or retention of payment under the conditions laid down in Article II.10.1. Any claim for liquidated damages does not affect the Contractor's actual or potential liability or the Contracting Authority's rights under ARTICLE I.10 – **LIABILITY**.

I.14.5 The Contracting Authority must formally notify the Contractor of its intention to apply liquidated damages and the corresponding calculated amount. The Contractor has 30 (thirty) days following the date of receipt to submit observations. Failing that, the decision becomes enforceable the day after the time limit for submitting observations has elapsed. If the Contractor submits observations, the Contracting Authority, taking into account the relevant observations, must notify the Contractor:

- of the withdrawal of its intention to apply liquidated damages; or
- of its final decision to apply liquidated damages and the corresponding amount.

ARTICLE I.15 – APPLICABLE LAW AND SETTLEMENT OF DISPUTES

I.15.1 The FWC shall be governed by European Union law, complemented, where necessary, by the law of Belgium.

I.15.2 Any dispute between the parties in relation to the interpretation, application or validity of the FWC, which cannot be settled amicably, shall be brought before the French-speaking courts of Brussels.

I.15.3 It is the Contractor's sole responsibility and duty, also beyond legal acts listed in Annex II.II, to comply and ensure full compliance with all applicable laws of any part of performance under the Framework Contract and Specific Contracts.

ARTICLE I.16 – Not Used

ARTICLE I.17 – Not Used

ARTICLE I.18 – EXCHANGE OF SERVICE PROVIDERS, ADDITIONAL SERVICE PROVIDERS, NON-SOLICITATION

I.18.1. Service Providers originally assigned to the team for performing activities under a Specific Contract may only be exchanged following written request by the Contractor's project officer and corresponding agreement by the Contracting Authority's project officer in writing, not to be unreasonably withheld, provided the following conditions are fulfilled:

- (1) The exchange must be duly justified in the request such as e.g. resignation, termination of contract or illness of the Service Provider;
- (2) Attached to the request must be the CV and any ancillary information which may be required to support that the new Service Provider fulfils the profile of the exchanged Service Provider in line with the imposed requirements; and
- (3) Measures are described in the request and subsequently applied to ensure that the quality of the services to the Contracting Authority is not affected due to or in relation to the exchange.

I.18.2. The Contracting Authority may also request the change of any Service Provider whose quality of performance is not satisfactory or who is not in line with other requirements of the FWC or the Specific Contract. In such case, the Contractor shall, not later than 20 (twenty) calendar days following receipt of the Contracting Authority's request, suggest replacement profiles equivalent to the Service Providers requested to be exchanged for the Contracting Authority's agreement in writing. Any suggestion shall be accompanied with CV and any ancillary documents which may be needed to verify the equivalence of the profile.

Failure to comply with the time limit of this Article I.18.2. or to suggest profiles equivalent to the Service Providers requested to be exchanged shall constitute a ground for termination of a Specific Contract under Article II.12.1 o). This termination may be only partial and may concern only the activities affected by the incompliance above. Following this termination, the Contracting Authority may request the next contractor in cascade to perform these tasks.

I.18.3. The exchange of a Service Provider against a different one according to this Article I.18 shall be implemented by the Contractor within the following time periods:

- a. in the case of Article I.18.1, within 10 (ten) working days following the date at which it received the Contracting Authority's project officer's agreement to the exchange;
- b. in the case of Article I.18.2, within 30 (thirty) calendar days following the date at which it received the Contracting Authority's request for the exchange.

For the purpose of this Article 18, the receipt of communication from the Contracting Authority by the Contractor shall be assumed to have taken place not later than 2 (two) working days after its dispatch unless proven otherwise by any of the Parties.

A failure of the Contractor to comply with the time limits of this Article I.18.3 shall constitute a ground for

termination under Article II.12.1 o).

I.18.4. During the validity of FWC and for a period of 24 (twenty-four) months from termination of the FWC, the Contractor shall neither directly or indirectly solicit, induce, recruit or encourage any of the Contracting Authority's employees to terminate their relationship with the Contracting Authority, or attempt to solicit, induce, recruit, encourage or take away employees of the Contracting Authority, either for itself or for any other person or entity. Any breach of this obligation in view of any individual Contracting Authority employee shall be subject to liquidated damages to the amount of 3 % of the value of the last Specific Contract awarded the Contractor under the FWC, with the provisions of Article I.14 on Liquidated Damages otherwise applying accordingly.

ARTICLE I.19 – PARTIAL TERMINATION

In case the Contracting Authority would have the right to terminate a Specific Contract under this FWC, it may also choose to only terminate a part or parts of the Specific Contract, provided this does not affect the Contractor's ability to perform the remaining part or parts. Such partial termination may in particular and without limitation, be performed through a de-scoping of a Specific Contract by reduction of activities and/or assigned Service Providers.

The Contractor must comply with the exclusion, selection criteria, participation conditions and minimum requirements provided for in the tender specifications throughout the duration of the Contract. This includes, without limitation, compliance with applicable obligations under environmental, social and labour law established by Union law, national law and collective agreements or by the international environmental, social and labour law provisions listed in Annex X to Directive 2014/24/EU, compliance with data protection obligations resulting from Regulation (EU) 2016/679 and Financial Regulation and compliance with obligations resulting from the Financial Regulation on the financial rules applicable to the general budget of the Union.

The Contracting Authority shall have the right to make a reasoned request for the replacement of any such Service Provider. The replacement Service Provider must have the necessary qualifications and be capable of performing the FWC under the same contractual conditions. The Contractor shall be responsible for any delay in the execution of the tasks assigned to it resulting from the replacement of the Service Provider. The Contractor bears the cost of replacing its Service Provider.

The report shall include a description of the problem and an indication of the date on which it started and of the remedial action taken by the Contractor to ensure full compliance with its obligations under this FWC. In such an event the Contractor shall give priority to solving the problem rather than determining liability.

The personal data will be stored in the premises of the aforementioned contractors, all of which are located within Union territory, and will be retained for up to 7 (seven) years after the expiry of the present FWC for audit and discharge purposes.

II.5.4 The Contractor shall have the right to request from the data controller access to, rectification or erasure of its personal data, restriction of processing, the right to object to the processing and the right to data portability, provided that there are grounds for the exercise of any of these rights, as per the applicable rules.

II.5.5 The Contractor shall have right of recourse at any time to the European Data Protection Supervisor.

II.5.6 If, throughout the duration of the FWC, the Contractor is required to process any personal data (acting as data processor), the Contractor shall:

- a) inform in writing without delay the data controller and act only on documented instructions from the data controller, in particular with regard to the purposes of the processing, the categories of data that may be processed, the recipients of the data and the means by which the data subject may exercise its rights;
- b) with regard to transfers of personal data to a country outside the European Union or an international organisation, act only on documented instructions from the data controller, unless required to do so by Union or Member State law to which the processor is subject; in such a case, the processor shall inform the data controller of that legal requirement before processing, unless that law prohibits such information on important grounds of public interest;

¹ Currently Regulation (EU) 2018/1725.

- c) ensure that persons authorised to process the personal data have committed themselves to confidentiality or are under an appropriate statutory obligation of confidentiality;
- d) without prejudice to Article II.5.8, take all necessary measures to ensure the security of the processing of personal data, as may be instructed by the controller;
- e) not engage another processor or sub-processor without prior specific written authorisation of the controller (the Contracting Authority);
- f) taking into account the nature of the processing, assist the controller by appropriate technical and organisational measures, insofar as this is possible, for the fulfilment of the controller's obligation to respond to requests for exercising the data subject's rights laid down in the applicable rules;
- g) assist the controller for the fulfilment of its obligations to:

 - communicate a personal data breach without undue delay to the data subject, where applicable
 - carry out data protection impact assessments and prior consultations as necessary
- h) notify relevant personal data breaches to the controller without undue delay and at the latest within 48 hours after the Contractor becomes aware of the breach. In such cases, the Contractor shall provide the controller with at least the following information:
 - nature of the personal data breach including where possible, the categories and approximate number of data subjects concerned and the categories and approximate number of personal data records concerned;
 - likely consequences of the breach;
 - measures taken or proposed to be taken to address the breach, including, where appropriate, measures to mitigate its possible adverse effects.
- i) maintain a record of all data processing operations carried on behalf of the controller, transfers of personal data, security breaches, responses to requests for exercising rights of people whose personal data is processed and requests for access to personal data by third parties;
- j) delete all the personal data after the end of the provision of services relating to processing;
- k) make available to the data controller all information necessary to demonstrate compliance with the obligations laid down in this Article and allow for and contribute to audits, including inspections, conducted by the controller or another auditor mandated by the controller.

II.5.7 The Contractor shall grant the Service Provider access to the data to the extent strictly necessary for the performance, management and monitoring of the FWC.

II.5.8 The Contractor shall adopt appropriate technical and organisational security measures having regard to the risks inherent in the processing and to the nature of the personal data concerned in order to ensure:

- a) the pseudonymisation and encryption of personal data;
- b) the ability to ensure the ongoing confidentiality, integrity, availability and resilience of processing systems and services;
- c) the ability to restore the availability and access to personal data in a timely manner in the event of a physical or technical incident;

- d) a process for regularly testing, assessing and evaluating the effectiveness of technical and organisational measures for ensuring the security of the processing;
- e) measures to protect personal data from accidental or unlawful destruction, loss, alteration, unauthorised disclosure of or access to personal data transmitted, stored or otherwise processed.

II.5.9 If, throughout the duration of the FWC, the Contractor is required to process any other categories of personal data other than those defined under Article II.5.6 a) above or is required to process any personal data for any other purposes other than those defined under Article II.5.6 b) above, it shall inform in writing without delay the data controller and act only on documented instructions from the data controller.

ARTICLE II.6– SUBCONTRACTING

II.6.1 The Contractor shall not subcontract and have the FWC implemented by third parties beyond the third parties already mentioned in its tender without prior written authorisation from the Contracting Authority.

II.6.2 Even where the Contracting Authority authorises the Contractor to subcontract to third parties, it shall nevertheless remain bound by its contractual obligations and shall be solely responsible for the proper performance of this FWC.

II.6.3 The Contractor shall make sure that the subcontract does not affect rights and guarantees granted to the Contracting Authority by virtue of this FWC, notably by Article II.8.1.

II.6.4 The Contracting Authority may request the Contractor to replace a sub-contractor found to be in a situation provided for in points (e) and (f) of Article II.12.1.

ARTICLE II.7 – AMENDMENTS

II.7.1 Any amendment to the FWC or Specific Contract shall be made in writing before fulfilment of all contractual obligations. A Specific Contract may not be deemed to constitute an amendment to the FWC.

II.7.2 The amendment may not have the purpose or the effect of making changes to the FWC or the Specific Contracts that might alter the initial conditions of the procurement procedure or specific contract or result in unequal treatment of tenderers or Contractors.

ARTICLE II.8 – ASSIGNMENT

II.8.1 The Contractor shall not assign the rights, including claims for payments or factoring, and obligations arising from the FWC, in whole or in part, without prior written authorisation from the Contracting Authority. In such cases, the Contractor must provide the Contracting Authority with the identity of the intended assignee.

II.8.2 In the absence of such authorisation, or in the event of failure to observe the terms thereof, the assignment of rights or obligations by the Contractor shall not be enforceable against the Contracting

Authority and shall have no effect on it.

ARTICLE II.9 – FORCE MAJEURE

II.9.1. If a party is affected by Force Majeure, it shall immediately and formally notify the other party without delay, stating the nature, likely duration and foreseeable effects. A party is not liable for any delay or failure to perform its obligations under the FWC if that delay or failure is a result of Force Majeure. If the Contractor is unable to fulfil its contractual obligations owing to Force Majeure, it has the right to remuneration only for the services actually provided.

II.9.2. The parties shall take all the necessary measures to limit any damage due to Force Majeure.

II.9.3. If the force majeure event lasts for more than 30 (thirty) days each party is entitled to terminate the FWC or Specific Contract. Article II.12.1 shall be used accordingly.

ARTICLE II.10 – PARTIAL PAYMENT AND RETENTION OF PAYMENT

II.10.1. If the Contractor fails to provide the service in accordance with the FWC or a Specific Contract, the Contracting Authority may reduce or retain payments proportionally to the seriousness of the unperformed obligations.

II.10.2. In cases where a payment milestone is partially achieved, the Agency may:

- perform partial payments, subject to the Contractor providing adequate evidence of the portion of the payment milestone which has been actually achieved. The execution of a partial payment is without prejudice to the application of liquidated damages at the completion of the affected milestone whenever occurring. The liquidated damages shall be calculated on the residual amount of the milestone not accepted and already covered by the partial payment.

or

- retain payment of the corresponding milestone, without prejudice of the application of liquidated damages in the full amount when the required performance is met or the milestone accepted.

II.10.3. Procedure for a partial payment or retention of payment

The Contracting Authority must formally notify the Contractor of its intention to partially pay a corresponding calculated amount or retain the payment. As regards the partial payment, the amount of the partial payment is clearly assessed by the Parties acting in good faith as a function of the value created to the Agency by the partial achievement of the payment milestone concerned.

The Contractor has 15 (fifteen) days following the date of receipt to submit observations. Failing that, the decision becomes enforceable the day after the time limit for submitting observations has elapsed.

If the Contractor submits observations, the Contracting Authority, taking into account the relevant observations, must notify the Contractor:

- of the withdrawal of its intention to partial payment or the retention of payment; or
- of its final decision to partial payment and the corresponding amount or the retention of payment.

ARTICLE II.11 – SUSPENSION OF THE IMPLEMENTATION OF THE CONTRACT

II.11.1 Suspension by the Contractor

The Contractor may suspend the performance of the FWC or Specific Contract or any part thereof if a case of Force Majeure makes such performance impossible or excessively difficult. The Contractor shall inform immediately the Contracting Authority about the suspension without delay, giving all the necessary reasons and details and the envisaged date for resuming the performance of the FWC.

The Contractor must notify the Contracting Authority as soon as it is able to resume performance of the Specific Contract, unless the Contracting Authority has already terminated the FWC or the Specific Contract.

II.11.2 Suspension by the Contracting Authority

The Contracting Authority may suspend the performance of the FWC or Specific Contract or any part thereof:

- a) if the FWC or Specific Contract award procedure or the performance of the FWC prove to have been subject to irregularities, fraud or substantial breaches of obligations;
- b) in order to verify whether presumed irregularities, fraud or substantial breaches of obligations have actually occurred;
- c) if the Contractor is in a situation of Professional Conflicting Interest under ARTICLE II.4 –**PROFESSIONAL CONFLICTING INTEREST** and pending the definition and implementation of rectification actions as set out under Article II.4.2 ;
- d) if the performance of the Contract is considered to materially affect, directly or indirectly, the interests of the European Union, such as but not limited to security threats;
- e) if the Contractor is considered to be in non-compliance with the confidentiality obligations and is required to submit relevant observations pursuant to **ARTICLE I.12 – CONFIDENTIALITY**;
- f) if, due to a change of circumstances, the Contractor, the Contractor Parties or any entity having a role in the performance of the Contract do not comply anymore with the EU Restrictive Measures, and if the Contractor has not promptly taken the necessary actions upon EUSPA request.

II.11.3 During suspension for events under points (a) attributable to the Contractor, (c), (d) and (e) no payments shall be due by the Contracting Authority on the affected Specific Contract.

II.11.4 Suspension shall take effect on the day the Contractor receives Formal Notification, or at a later date provided in the Notification. The Contracting Authority shall as soon as possible give notice to the Contractor to resume the service suspended or inform the Contractor that it is proceeding with termination of the FWC or Specific Contract. The Contractor shall not be entitled to claim compensation on account of suspension of the FWC or Specific Contract or of part thereof.

ARTICLE II.12 – TERMINATION OF THE FWC

II.12.1 Grounds for termination by the contracting authority

The Contracting Authority may terminate the FWC, and any on-going Specific Contract respectively in the following circumstances:

- a) if provision of the services under a pending Specific Contract has not actually started within 15 (fifteen) days of the scheduled date and the Contracting Authority considers the new date proposed, if any,

unacceptable, taking into account Article II.7.2;

- b) if the Contractor is unable, through its own fault, to obtain any permit or licence required for implementation of the FWC or the Specific Contract;
- c) if the Contractor repeatedly refuses to sign Specific Contracts or repeatedly fails to send them back on time. Termination of two or more Specific Contracts in these circumstances also constitutes grounds for termination of the FWC;
- d) if the Contractor or any person that assumes unlimited liability for the debts of the Contractor is in one of the situations provided for in points (a) and (b) of Article 136(1) of the Financial Regulation;
- e) if the Contractor or any Related Person is subject to any of the situations provided for in points (c) to (f) of Article 136(1) or to Article 136(2) of the Financial Regulation;
- f) if the procedure for awarding the FWC or the implementation of the FWC prove to have been subject to irregularities, fraud or substantial breaches of obligations on the side of the Contractor;
- g) if the Contractor does not comply with applicable obligations under environmental, social and labour law established by Union law, national law, collective agreements or by the international environmental, social and labour law provisions listed in Annex X to Directive 2014/24/EU;
- h) if the Contractor fails to notify the Contracting Authority that it is in a situation of Professional Conflicting Interest as referred to in Article II.4.1; or fails to take immediate action for rectification or additional action for rectification as required by Contracting Authority; or if the proposed rectification actions are, in the opinion of Contracting Authority acting reasonably, not effective;
- i) if a change to the Contractor's legal, financial, technical, organisational or ownership situation is likely to substantially affect the implementation of the FWC or substantially modify the conditions under which the FWC was initially awarded or a change regarding the exclusion situations listed in Article 136 of Financial Regulation that calls into question the decision to award the contract;
- j) in the event of Force Majeure, where either resuming implementation or the performance is impossible or the necessary ensuing amendments to the FWC or a Specific Contract would mean that the tender specifications are no longer fulfilled or result in unequal treatment of tenderers or Contractors;
- k) in case of persistent breach, intended as a repeated breach of the same obligation under the Contract or a Specific Contract, notwithstanding written warnings sent by the Contracting Authority;
- l) if the Contractor is in breach of the confidentiality obligations resulting from ARTICLE I.12 – **CONFIDENTIALITY**;
- m) if the Contractor takes any step to recruit a member of the Contracting Authority staff;
- n) if the Contractor does not comply with the applicable data protection obligations resulting from Regulation (EU) 2016/679;
- o) if the Contractor does not implement the FWC or perform the Specific Contract in accordance with the tender specifications or request for service or is in breach of another substantial contractual obligation;
- p) if, due to a change of circumstances, the Contractor, the Contractor Parties or any entity having a role in the performance of the Contract do not comply anymore with the EU Restrictive Measures identified in Article 1 -Definitions, above, and if the Contractor has not promptly taken the necessary actions upon EUSPA request.

II.12.2 Grounds for termination by the Contractor

The Contractor may terminate the FWC or an on-going Specific Contract only if:

- a) it has evidence that the Contracting Authority has committed irregularities, fraud, substantial breaches of obligations in the procedure for awarding the FWC or the implementation of the FWC;
- b) the Contracting Authority fails to comply with its obligations, in particular the obligation to provide the information needed for the Contractor to implement the FWC or to perform a Specific Contract as provided for in the tender specifications.

II.12.3 Procedure for termination

A party must formally notify the other party of its intention to terminate the FWC or a Specific Contract and the grounds for termination.

The other party has 30 (thirty) days following the date of receipt to submit observations, including the measures it has taken to continue fulfilling its contractual obligations. Failing that, the Notification to termination becomes enforceable the day after the time limit for submitting observations has elapsed. If the other party submits observations, the party intending to terminate must formally notify it within 15 (fifteen) days following the date of receipt of the observations either of the withdrawal of its intention to terminate or of its final decision to terminate. Provided there is no Formal Notification delivered to the other party, it shall be deemed that the intention to terminate was withdrawn.

In the cases referred to in points (a) to (d), (g) to (i), (k), to (l) and (n) of Article II.12.1, the date on which the termination takes effect must be specified in the Formal Notification.

Unless agreed otherwise, the notice period is 1 (one) month.

In the cases referred to in points (e), (f), (j) and (m) of Article II.12.1, the termination takes effect on the day following the date on which the Contractor receives Notification of termination, Formal Notification is not required.

In addition, at the request of the Contracting Authority and regardless of the grounds for termination, the Contractor must provide all necessary assistance, including information, documents and files, to allow the Contracting Authority to complete, continue or transfer the services to a new Contractor or internally, without interruption or adverse effect on the quality or continuity of the services. The parties may agree to draw up a transition plan detailing the Contractor's assistance unless such plan is already detailed in other contractual documents or in the tender specifications. The Contractor must provide such assistance at no additional cost, except if it can demonstrate that it requires substantial additional resources or means, in which case it must provide an estimate of the costs involved and the parties will negotiate an arrangement in good faith.

II.12.4 Effects of termination

The Contractor is liable for damage incurred by the Contracting Authority as a result of the termination of the FWC or a Specific Contract for Contractor's default, including the cost of appointing another Contractor to provide or complete the services.

The Contractor is not entitled to compensation for any loss resulting from the termination of the FWC or a Specific Contract, unless the loss was caused by the situation specified in Article II.12.2. The parties agree that only material damage, not loss of anticipated profit, will be compensated to the Contractor.

The Contractor must take all appropriate measures to minimise costs, prevent damage and cancel or reduce its commitments.

Within 60 (sixty) days of the date of termination, the Contractor must submit any report, deliverable or result and any invoice required for services that were provided before the date of termination.

In the case of joint tenders, the Contracting Authority may terminate the FWC or a Specific Contract with each member of the group separately on the basis of points (d), (e) (g), or (n) of Article II.12.1, under the conditions set out in this Article.

The Contractor makes any conversion between the euro and another currency at the monthly accounting exchange rate, established by the Commission and published on the website indicated below, applicable on the date of the invoice.

added tax (VAT) purposes and shall specify separately the amounts not including VAT and the amounts including VAT. The Contracting Authority is, as a rule, exempt from all taxes and duties, including VAT, pursuant to the provisions of Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Union.

The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the supplies and services required for performance of the FWC are exempt from taxes and duties, including VAT exemption.

II.13.6 Interim payments and payment of the balance

Upon receipt, the Contracting Authority shall pay the amount due as interim or final payment, within the periods specified in Article I.6.1, provided the invoice, deliverables and documents have been approved by the Contracting Authority and without prejudice to Article II.10.1. Payment of the balance may take the form of recovery.

II.13.7 Suspension of the time allowed for payment

The Contracting Authority may suspend the payment periods specified in Article II.11.1 at any time by notifying the Contractor (or leader in the case of a joint tender) that its invoice cannot be processed, either because it does not comply with the provisions of the FWC, or because the appropriate documents have not been produced, or because the Contracting Authority has observations on the documents or deliverables submitted with the invoice. The Contracting Authority must notify the Contractor (or leader in the case of joint tender) as soon as possible of any such suspension, giving the reasons for it. The Contracting Authority shall notify the Contractor (or leader in case of a joint tender) of the need to submit additional information or corrections or a new version of the documents or deliverables if the Contracting Authority requires it.

Suspension shall take effect on the date the Notification is sent by the Contracting Authority. The remaining payment period resumes from the date on which the requested information or revised documents are received by the Contracting Authority or the necessary further verification, including on-the-spot checks, is carried out. Where the suspension period exceeds two months, the Contractor may request the Contracting Authority to justify the continued suspension.

Where the payment periods have been suspended following rejection of a document referred to in the first paragraph and the new document produced is also rejected, the Contracting Authority reserves the right to terminate the Specific Contract in accordance with Article II.12.1(c).

II.13.8 Interest on late payment

On expiry of the payment periods specified in Article I.6.1, the Contractor is entitled to interest on late payment at the rate applied by the European Central Bank for its main refinancing operations in Euros (the reference rate) plus eight points. The reference rate shall be the rate in force on the first day of the month in which the payment period ends, as published in the C series of the Official Journal of the European Union.

The suspension of the payment period in accordance with Article II.12.1 may not be considered as a late

payment. Interest on late payment shall cover the period running from the day following the due date for payment up to and including the date of actual payment as defined in Article II.12.1. However, when the calculated interest is lower than or equal to EUR 200, it shall be paid to the Contractor only upon request submitted within two months of receiving late payment.

ARTICLE II.14 - REIMBURSEMENTS

II.14.1 Where provided by the special conditions or by the tender specifications, the Contracting Authority shall reimburse the expenses that are directly connected with execution of the tasks either on production of original supporting documents, including receipts and used tickets, or failing that, on production of copies or scanned originals, or on the basis of flat rates.

II.14.2 Travel, accommodation and subsistence expenses shall be reimbursed, where appropriate, on the basis of the shortest itinerary and the minimum number of nights necessary for overnight stay at the destination.

II.14.6 Conversion between the euro and another currency shall be made as specified in Article II.13.3.

ARTICLE II.15 – RECOVERY

II.15.1 If an amount is to be recovered under the terms of the FWC or the Specific Contract, the Contractor shall repay the Contracting Authority the amount in question according to the terms and by the date specified in the debit note.

II.15.2 Before recovery, the Contracting Authority must formally notify the Contractor of its intention to recover the amount it claims, specifying the amount due and the reasons for recovery and inviting the Contractor to make any observations within 30 (thirty) days of receipt. If no observations have been submitted or if, despite the observations submitted, the Contracting Authority decides to pursue the recovery procedure, it must confirm recovery by formally notifying a debit note to the Contractor, specifying the date of payment. The Contractor must pay in accordance with the provisions specified in the debit note.

II.15.3 If the Contractor does not pay by the due date, the Contracting Authority may, after informing the Contractor in writing, recover the amounts due:

II.16.1 The Contracting Authority and the European Anti-Fraud Office may check or have an audit on the performance of the FWC. It may be carried out either directly by their own staff or by any other outside body authorised to do so on their behalf. Such checks and audits may be initiated at any moment during the performance of the FWC and during a period of up to five years which starts from the payment of the balance

II.16.2 The Contractor must keep all original documents stored on any appropriate medium, including digitised originals if authorised by national law and under the conditions laid down therein, for a period of five years which starts running the payment of the balance of the last Specific Contract issued under this FWC.

II.16.3 The Contractor shall allow the Contracting Authority's staff and outside personnel authorised by the Contracting Authority the appropriate right of access to sites and premises where the FWC is performed and to all the information, including information in electronic format, needed in order to conduct such checks and audits. The Contractor must ensure that the information is readily available at the moment of the check or audit and, if so requested, that information be handed over in an appropriate form.

II.16.4 On the basis of the findings made during the audit, a provisional report shall be drawn up. It shall be sent to the Contractor, which shall have 30 (thirty) days following the date of receipt to submit observations. The prohibition applies throughout the whole performance of the Contract.

II. 17.2 The Contractor shall promptly inform the Agency of any change of circumstances in relation to the EU Restrictive Measures, as per the Definitions, above. In such case, the Agency shall determine remedial measures in accordance with the applicable legal framework.
