1. Overview

The objective of this Call for experts is to set up a list of external Experts to provide advice to the European GNSS Agency (hereinafter the “GSA” or the “Contracting Authority”) in the areas defined below (section 3), as provided in Article 237 of the EU Financial Regulation.

Please note that in the financial perspective 2021-2027, a new regulation should be adopted foreseeing the start of the EU Space Programme Agency (EUSPA) as the successor to the GSA. EUSPA takes on increased responsibilities not only for Galileo and EGNOS, but also for the other EU space programmes, in particular Copernicus and GOVSATCOM.

This call is aimed at natural persons who are citizens of an EU Member state, Switzerland or Norway. Legal entities are not eligible to apply.

In exceptional cases when the Expert is not available to be assigned tasks *ad personam* (e.g. the expert is employed and his/her employment contract contains an exclusivity clause whereby expertise services for other parties can only be contracted through the legal entity), the application will be considered eligible. Additional documentary evidence may be requested.

2. General description of the procedure

Interested parties are invited to submit an expression of interest in accordance with the rules set out in this call. Based on the received expressions of interest, the GSA will draw up a list of interested Experts. This list comprises sub lists, corresponding to each of the areas of expertise described in Annex 1.

When and as needed, the GSA will consult the list and assign the contract to the most appropriate Expert for the task.

The inclusion on the list does nothing more than note the Expert’s interest in providing services to the GSA and entails no obligation on the part of the contracting authority concerning the conclusion of contracts.

3. Description of the areas of expertise covered by this call

The experts may be required to support the GSA with the following tasks:

- Assessing applications for EU funding (including tenders, grants and prizes);

- Monitoring of EU funded projects and contracts;
- Providing opinions and advice on specific issues.

In order to provide the support, the GSA is looking for experts with a high level of expertise and professional experience in the following areas:

- Aerospace Technologies and Engineering
- Space applications in Transport
- Space application in Agriculture & Food
- Space Application in Environment & Climate change
- Space application in Energy
- Information Society
- Innovation & Growth in Space Application
- Safety & Security
- Economic analysis & Entrepreneurship
- Communication & Marketing
- Quality Assurance, Product Assurance & Configuration Management
- Security assurance
- Law

The areas of expertise are further defined in Annex I.

4. Expiry date of the list

The list resulting from this call is valid for five (5) years from the publication of the call in the GSA webpage.

Interested parties may submit an expression of interest at any time prior to the last three months of validity of the list.

5. Use of the lists and assignment of tasks

Individuals interested in being included in the list have to express their interest to callforexperts@gsa.europa.eu in accordance with Section 10 of this Call.

Where a particular task relating to the areas of expertise described in Section 3 is to be performed by an external Expert, the Contracting Authority will select the Expert based on the selection criteria such as professional expertise and experience, language skills and considering the principles of non-discrimination, equal treatment and absence of conflict of interests.

The selected Expert will be contacted with a proposal of the task assignment and availability. At the same time, the Contracting authority will verify the Expert's identity and bank account, his/her compliance with the requirements of this Call, as well as mandatory legal requirements laid down in the EU Financial Regulation 2018/1046.

The selected Expert will be appointed through the signature of a contract between the Expert and the Agency, defining the exact scope of tasks to be performed. The draft contract is provided in Annex 3 to this Call. The submission of the application implies acceptance of the draft contract provisions, including its annexes. In exceptional cases when the Expert is not available to be assigned tasks *ad personam* (see Section 1), the contract may be amended accordingly.

If selected for assignments involving classified information, Experts will need to provide proof of appropriate security clearance from their national security authority (NSA).

The Expert may be selected to perform a task more than once, however the total amount of payments (including both remunerations and reimbursements of travel and accommodation costs) over the entire duration of the list validity must be below the threshold for the award of public contracts referred to in Art. 175 of the EU Financial Regulation 2018/1046 (at the time of the Call publication 139 000 EUR).

6. Place of delivery

Tasks may be carried out at the GSA's premises, or remotely, using electronic communication tools at GSA's request. They also may need to be performed on other sites that will be mentioned in the contract's specifications.

7. Condition of remuneration and reimbursement of experts

Experts shall be remunerated at a fixed price of 600 euros/day worked for Experts and 1000 euro/day worked for Senior experts. The travel and subsistence expenses will be reimbursed under the conditions set out in the contract.

8. Ex post publication

In accordance with Article 38 of the EU Financial Regulation, information about EU expert contracts (including the Expert's name and address) shall be published on an annual basis on the website of the Contracting Authority.

9. Assessments of the experts

The evaluation of the experts will be based on the following criteria:
