

## **Clarification Note #2**

GSA internal reference: 255213

### **Procurement procedure: GSA/OP/05/19**

#### **Development of an advanced interference detection and robustness capabilities system**

**Question #2: Should a Security Facility Clearance be presented in order for the GSA to grant access to the classified proprietary information?**

**Answer #2:** In order for the potential bidders to have access to the classified proprietary information, it is necessary that the company formally appoints a Local Security Officer who shall become the contact point and the responsible person for classified (RESTREINT UE/EU RESTRICTED) information. For the appointment of the Local Security Officer, please refer to the Clarification Note 1 (ref.: 254760).

The Facility Security Clearance will be necessary for the later stages, namely for the signature and the performance of the contract, if classified information of higher levels (CONFIDENTIEL UE/EU CONFIDENTIAL and/or SECRET UE/EU SECRET) needs to be exchanged.
