

Procurement procedure: GSA/OP/03/17 Legal advice and support to GSA

GSA internal reference: 233291

Clarification Note #3

A potential tenderer requested access to contracts GSA/NP/05/10 and GSA/NP/07/12 which were concluded by the GSA with the previous contractor of legal services for the GSA (BHO Legal Rechtsanwälte).

The GSA considers that such contracts are not relevant for preparation of the tender in the present procurement procedure.

However, should any potential tenderer deem it necessary to have access to these contracts, it can request access to it, by sending a request to tenders@gsa.europa.eu. The subject of the email shall be: "GSA/OP/03/17/Lot[insert number applied for]: Request for access to documents". The request shall also specify the name of the person and email address to which the electronic version of these documents should be sent.

The GSA will grant access to the contracts within 3 working days, being understood that the provided documents will omit all parts of the contracts which may undermine the commercial interests of the previous contractor or which may undermine the protection of privacy and the integrity of individuals or public security interests.
