

## Announcement of a planned tender procedure

**Procurement procedure title: Unmanned Aerial Vehicle (UAV) with an EGNSS receiver  
("UAV with an EGNSS receiver")**

**Procurement procedure reference: EUSPA/NP/28/21**

The European Union Agency for the Space Programme (EUSPA) is planning to organise a tender procedure having the following characteristics:

**Type of procedure:** Negotiated procedure for low value contracts.

**Subject-matter:** The subject matter of the procurement procedure is the delivery of an Unmanned Aerial Vehicle (UAV) intended to cover great surfaces, long endurance, with the maximum available payload, in a high payload/total mass ratio. The UAV shall be equipped with a long-range telemetry system, three-level redundancy autopilot, electric powered and capable to transport three sensors at once (high resolution Red – Green – Blue "RGB" optical sensor, multispectral sensor with 5 bands and high-end thermal sensor). The equipment shall be ready for use, fully assembled, configured and delivered with appropriate transport boxes.

**Estimated value:** Up to 30,000.00 EUR

**Place of performance:** The delivery of equipment will be to the EUSPA premises in Prague, Czech Republic:  
Janovského 438  
170 00 Praha 7-Holešovice  
Czech Republic

**Estimated timeline for launch of procedure:** Q4 2021

The EUSPA reserves the right to change the scope, estimated value and timeline of the procedure.

If you are interested in participating in the tender above, please express your interest by sending an email before **15/11/2021, 17:00 (Prague local time)** to the following email address: [tenders@euspa.europa.eu](mailto:tenders@euspa.europa.eu). The subject of the email shall be "EUSPA/NP/28/21 – UAV with an EGNSS receiver".

No further information is required at this stage of the procedure. Economic operators having expressed their interest will be invited to submit an offer.
