

GNSS Awareness – 12th November

Geovation (London, UK)

Select one event:

- Main event (theory, demo + idea hack). 11:30-17:00 OR
- Meetup (demo + idea hack). 18:00-20:00 for quick summary and shorter hack

✓ Theory

How can you get meter level accuracy from your phone using GNSS/Galileo RAW measurements?

✓ Demo

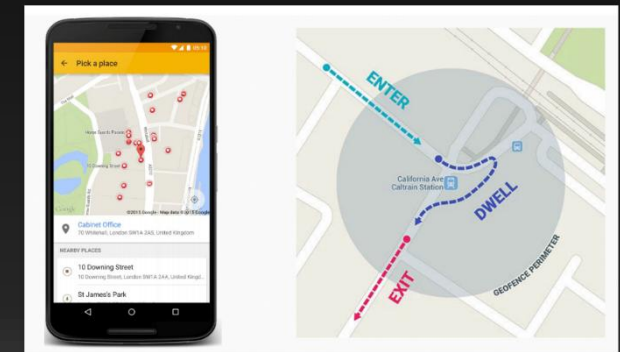

-hands on demonstration of FLAMINGO mock-up API: test it with your product

✓ Idea hack

- Split group idea marathon – how would you utilise the meter level mobile navigation and eGNSS

-Discussion lead by the project members from UK and France

-You can further develop you idea in December hack in Helsinki or in London in early 2020.
