

EUROPEAN SPACE WEEK

#EUSpaceWeek

ONLINE EDITION

Maritime and Inland Waterways requirements

Captain Johan Gahnström AFNI

Organised by:

European
Global Navigation
Satellite Systems
Agency

Under the auspices of:

EU Space Programme:

Change in requirements

- The only update that is of any substance is the addition of the requirement of resilience of PNT solutions. This comes from new guidance from both IMO and IALA.
- Other updates are either confirmation of old requirements or editorials or clarification nature

Change in sources

- The most important update is on IALA sources, this comes with the fact that IALA now is an international recognised organisation and can now issue standards. IALA as a consequence have issued standards, one that is of importance to the PNT solutions, that in general points at their older publications already in the sources list.
- Important additions are that both IMO and IALA have added guidance on resilience of PNT solutions. These have been added to the sources list.
- Other changes are only verification of sources or updates where there is a newer version of the documents.
