FIG Young Surveyors
Ferah Pirlanta Köksal (TK)
Leading Surveyors Association

- 38 Member countries
- + 3 Observing members
- 27 EU Member States
- >> 100,000 Surveyors

- Requires close cooperation
  - FIG, YSEN, …
  - EuroGeographics, PCC
  - European Bodies (GSA!)
  - National Associations
CLGE: a definition

CLGE is the leading representational body for the Surveying Profession in Europe.
- Promotes the Profession in the EU
- Fosters its development in the Council of Europe

Surveying includes Cadastral Surveying which provides security to land and property title and thus underlies the economic base of western society.

Geospatial Information is now ubiquitous in our lives and the Surveyor plays a fundamental role in this field.
CLGE: a definition

CLGE is the leading representational body for the Surveying Profession in Europe.
- Promotes the Profession in the EU
- Fosters its development in the Council of Europe

Surveying includes Cadastral Surveying which provides security to land and property title and thus underlies the economic base of western society.

Geospatial Information is now ubiquitous in our lives and the Surveyor plays a fundamental role in this field.
CLGE: a definition

The individual Surveyors spread over now 41 member states are the final and most important beneficiaries of our activities.

CLGE also pursues more general aims such as:

- the sustainable development;
- public and individual interests European Citizens.
One Profession

Strategic Goals of CLGE

• Take part in the legislative process governing the exercise of the Surveying Profession at the European and national levels;

• Build a Professional image of the European of Surveyor, recognized by the national governments as well as the EU;

• Motivate young surveyors to become active within their national associations and hence within CLGE.

• Make sure that the CLGE members are satisfied with the performance of CLGE.

• Influence

• Visibility

• Renewal

• Members Satisfaction

“Code of Professional Qualification for Property Surveyors”

A new Code of Professional Qualifications is available now

Clemens Kiepke (DE), Chairman of the Interest Group of Publicly Appointed and Regulated Surveyors has all the reasons to be pleased. Eventually the former “Accord Multilateral” launched in 2001 by IG-PARLS’ predecessor Geometer Europas, has been replaced by the Code of Professional Qualifications for Property Surveyors.

The Solemn signature took place during INTEREGO in Stuttgart on 15 September 2015.

The documents are available hereafter. Actually the whole initiative consists of three separate documents:

- The actual code
- A iterative report made of national contributions
- A letter of intent to be signed by all who would like to follow the code.

Code of professional qualifications

Ver. 1.0 20150316
Code of professional qualifications for Property Surveyors

(The Code of Professional Qualifications of Property Surveyors is new and replaces “Multilateral Accord” issued by GE (Geometer Europas) in 2001 and adopted by CLGE/IG-PARLS by the means of CLGE and GE in 2010.)

The topics covered by this Code are related to legal regulated cadastral work (in the field of real property formation, modification and registration), property and land management activities to ensure reliable cadastral systems and land registers and to secure and protect property rights. These basic systems and registers are fundamental infrastructural elements in every society in order to secure the rights and ownership of property. It is imperative, that all questions related to property are considered trustworthy and treated reliably.

Conclusion

• CLGE is working for the Profession
• Geodesy is one of our Cornerstones
• Strong cooperation with the GSA
  – Professional practice for Geodetic Surveying
  – Geomatics on the Move Contest
• Way ahead
  – Develop our cooperation further
